LLP, Statutory Auditors of our Company to include their name as an expert under Section 26(5) of the Companies Act 2013 in the Draft Shelf Prospectus and Shelf Prospectus and Tranche 2 Prospectus in relation to the examination report dated August 19, 2016, Limited review Report for the period ended September 30, 2016 and statement of tax benefits dated August 19, 2016 included in the Draft Shelf Prospectus, Shelf Prospectus and Tranche 2 Prospectus, (as the case may be) and such consent has not been withdrawn as on the date of this Tranche 2 Prospectus.

Our Company has received consent from BRICKWORK to act as the credit rating agency to the Issue and as an expert as defined under Section 2(38) of the Companies Act, 2013 vide its letter dated March 21, 2016.

Credit Ratings and Rationale

By its letter dated June 19, 2013 and revalidation letter dated January 12, 2017, BRICKWORK has assigned a rating of “BWR AA+” (BWR Double A plus) to the issue of NCDs by the Issuer to the extent of unutilized ₹97.35 crores out of ₹200 crores. The said rating is valid till July 3, 2017.

By its letter dated July 21, 2014 and revalidation letter dated January 12, 2017, BRICKWORK has assigned a rating of “BWR AA+” (BWR Double A plus) to the issue of NCDs by the Issuer to the extent of ₹543.10 crores out of ₹1,000 crores. The said rating is valid till July 3, 2017.

By its letter dated August 6, 2014 and revalidation letter dated January 12, 2017, BRICKWORK has assigned a rating of “BWR AA+” (BWR Double A plus) to the issue of NCDs by the Issuer to the extent of unutilized ₹66.87 crores out of ₹393.01 crores. The said rating is valid till July 3, 2017.

All the Instruments with BWR AA+ rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. Set out below is an extract of the rating rationale adopted by BRICKWORK:

“Brickwork Ratings (BWR) upgrades Srei Infrastructure Finance Limited’s (‘SIFL or the Company’) Ratings to BWR ‘AA+’ (Pronounced BWR Double A Plus) with a stable outlook from BWR AA (Pronounced BWR Double A) with a stable outlook for NCD issues aggregating to ₹4,500 cr and Issuer Rating. The rating “BWR AA+” stands for an instrument that is considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. The rating upgradation, inter alia, factors the substantial cash inflows from the stake sale in Viom Networks Ltd. (Viom) resulting in improved liquidity and capital adequacy, its acquisition of balance stake in Srei Equipment Finance Limited (SEFL) and the Government’s initiatives to revive the infrastructure sector. The rating continues to factor in the Infrastructure Finance Company (IFC) status enjoyed by SIFL as per RBI’s prescribed norms, the time tested experience of the promoter group in the line of infrastructure financing and equipment financing businesses, reduction in average loan size and overall management of asset quality.”

CARE has assigned a rating of ‘CARE A+ (Single A Plus)’ to some of our outstanding NCDs vide their letters dated March 21, 2016 and revalidation letter dated December 05, 2016. These NCDs were earlier rated ‘CARE AA- (Double A minus)’.

INTERNAL RISKS

1. *This Tranche 2 Prospectus includes certain unaudited financial information, which has been subject to limited review, in relation to our Company. Reliance on such information should, accordingly, be limited.*

This Tranche 2 Prospectus includes certain unaudited financial information in relation to our Company, for the six months ended September 30, 2016, in respect of which the Statutory Auditors of our Company have issued their Limited Review Report dated November 5, 2016. As this financial information has been subject only to limited review and not to an audit, any reliance by prospective investors on such unaudited financial information for the six months ended September 30, 2016 should, accordingly, be limited. Moreover, our financial results for any given fiscal quarter or period, including the six months ended September 30, 2016, may not be directly comparable with our financial results for any full fiscal or for any other fiscal quarter or period. EXTERNAL RISKS

2. *The new bankruptcy code in India may affect the Company’s right to pay back its creditors*

The Indian Government introduced the Insolvency and Bankruptcy Code, 2016 (the “Bankruptcy Code”). The Bankruptcy Code has been passed by both the houses of Indian Parliament and has received Presidential assent and several sections of the Bankruptcy Code have been notified by the Indian Government (though substantial part of the Bankruptcy Code is yet to be notified) and the Insolvency and Bankruptcy Board of India has also been set up on and from October 1, 2016. At present, there are multiple overlapping laws and adjudicating forums dealing with financial failure and insolvency of companies and individuals in India. The Bankruptcy Code offers a uniform, comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision, and agree upon a plan for its revival or a speedy liquidation. Currently, the winding up of companies is governed by the provisions of the Companies Act, 1956, as the corresponding provisions of the Companies Act, 2013 have not yet come into force. The

Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms that will facilitate a formal and time-bound insolvency resolution and liquidation process. If the Bankruptcy Code provisions are invoked against the Company, it may affect its ability to pay back its creditors and enforcement of creditor rights will be subject to the Bankruptcy Code.

3. *The new bankruptcy code in India may affect the Company's rights to recover loans from its borrowers*

At present, there are multiple overlapping laws and adjudicating forums dealing with financial failure and insolvency of companies and individuals in India. The Bankruptcy Code offers a uniform, comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision, and agree upon a plan for its revival or a speedy liquidation. If the Bankruptcy Code provisions are invoked against any of the borrowers of the Company, it may affect the Company's ability to recover its loans from the borrowers and enforcement of the Company's rights will be subject to the Bankruptcy Code.

4. *The recent currency demonetisation measures imposed by the Government of India may adversely affect our business and the Indian economy.*

Through notifications dated November 8, 2016 issued by the Ministry of Finance, GoI and the RBI ₹500 and ₹1,000 denominations of bank notes of then existing series issued by the RBI have ceased to be legal tender. Pursuant to this currency demonetisation, these high denomination notes have no value and cannot be used for transactions or exchange purposes with effect from November 9, 2016. These notes are currently being replaced with a new series of bank notes. In an effort to monitor replacement of demonetised notes, the GoI has specified restrictive limits for exchange and withdrawal of currency all over India. The process of demonetisation and replacement of these high denomination notes is likely to reduce the liquidity in the Indian economy which has significant reliance on cash. These factors may result in reduction of purchasing power, and alteration in consumption patterns of the economy in general. While the comprehensive and long - term impact of this currency demonetisation measure cannot be ascertained at the moment, it is possible that there will be a slowdown in the economic activities in India, at least in the short term, given the demonetization impacts a majority quantity of the cash currency in circulation. Such a slowdown can adversely affect the Indian economy, impacting the payment ability of our customers, which may increase the likelihood of defaults and may increase our NPA levels, which may have a material adverse effect on our business, results of operations and financial condition.

VIII. REGULATIONS AND POLICIES

INSOLVENCY AND BANKRUPTCY CODE

The Insolvency and Bankruptcy Code, 2016 (Code) was passed by the Upper House of the Parliament on May 11, 2016 (shortly after being passed by the Lower House on May 5, 2016). The Code has received the assent of the President of India on May 28, 2016. The Country now has a new legal regime that primarily enables time-bound restructuring and bankruptcy of debtors. Some of the primary objectives with which the Code has been conceptualized are:

- A. to consolidate the laws relating to insolvency, reorganization and liquidation/ bankruptcy of all persons, including companies, individuals, partnership firms and Limited Liability Partnerships (LLPs) under one statutory umbrella and amending relevant laws;
- B. time bound resolution of defaults and seamless implementation of liquidation/ bankruptcy and maximizing asset value;
- C. to encourage resolution as means of first resort for recovery;
- D. creating infrastructure which can eradicate inefficiencies involved in bankruptcy process by introducing National Company Law Tribunal (NCLT), Insolvency Resolution Professional Agencies (IPAs), Insolvency Professionals (IPs) and Information Utilities (IUs).

In order to cover bankruptcy of individuals, the Code will repeal the Presidency Towns Insolvency Act, 1909 and Provincial Insolvency Act, 1920. Additionally, the Code will amend 11 statutes including, inter alia, the Companies Act, 2013 (Companies Act) Sick Industrial Companies (Special Provisions) Repeal Act, 2003 (SICA), Limited Liability Partnership Act, 2008 (LLP Act), Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI) and Recovery of Debts Due to Banks and Financial Institutions Act, 1993 (RDDBFI). The Code seeks to establish an Insolvency and Bankruptcy Board of India (Board) which will function as the regulator for all matters pertaining to insolvency and bankruptcy. The Board will exercise a range of legislative, administrative and quasi-judicial functions.

The Code specifies 2 different adjudicating authorities (the Adjudicating Authority) which will exercise judicial control over the insolvency process as well as the liquidation process. In case of companies, LLPs and other limited liability entities (which may be specified by the Central Government from time to time), the NCLT shall be acting as the Adjudicating Authority. All appeals from NCLT shall lie with the appellate authority, i.e. the National Company Law Appellate Tribunal (NCLAT). In case of individuals and partnerships, the Adjudicating Authority would be the Debt Recovery Tribunal (DRT) with the Debt Recovery Appellate Tribunal (DRAT) continuing to be the appellate tribunal even for insolvency/ bankruptcy matters. The Supreme Court of India shall have appellate jurisdiction over NCLAT and DRAT.

Corporate Insolvency includes two processes within its ambit, (i) Insolvency Resolution and (ii) Liquidation. The Code prescribes a timeline of 180 days for the insolvency resolution process, which begins from the date the application is admitted by the NCLT. The period is subject to a single extension of 90 days in the event the Adjudicating Authority (being petitioned by a resolution passed by a vote of 75% of the COC) is satisfied that the corporate insolvency resolution process cannot be completed within the period of 180 days. This time period is also applicable to individual insolvency resolution process. During this period, the creditors and the debtor will be expected to negotiate and finalise a resolution plan (accepted by 75% of the financial creditors) and in the event they fail, the debtor is placed in liquidation and the moratorium lifted. The Code stipulates an interim-moratorium period which would commence after filing of the application for a fresh start process and shall cease to exist after elapse of a period of 180 days from the date of application. During such period, all legal proceedings against such debtor should be stayed and no fresh suits, proceedings, recovery or enforcement action may be initiated against such debtor. However, the Code has also imposed certain restrictions on the debtor during the moratorium period such as the debtor shall not be permitted to act as a director of any company (directly/indirectly) or be involved in the promotion or management of a company during the moratorium period. Further, he shall not dispose of his assets or travel abroad during this period, except with the permission of the Adjudicating Authority.

The bankruptcy of an individual can be initiated by the debtor, the creditors (either jointly or individually) or by any partner of a partnership firm (where the debtor is a firm), only after the failure of the Insolvency Resolution Process (IRP) or non-implementation of repayment plan. The bankruptcy trustee is responsible for administration of the estate of the bankrupt and for distribution of the proceeds on the basis of the priority set out in the Code.

Within each Portion, priority in Allotments will be given on a first-come-first-serve basis, based on the date of upload of each Application into the electronic system of the Stock Exchanges.

- (d) For each Portion, all Applications uploaded on the same day in to the Electronic Book with Stock Exchanges would be treated at par with each other. Allotment would be on proportionate basis, where NCDs uploaded into the Platform of the Stock Exchanges on a particular date exceeds NCDs to be allotted for each Portion respectively.
- (e) Minimum allotments of 1 (one) NCD and in multiples of 1 (one) NCD thereafter would be made in case of each valid Application.
- (f) Allotments in case of oversubscription:

In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription (i.e. where in the number of NCDs available for allotment in the respective Category is less than the demand for NCDs by the applicants in the respective Category) and proportionate allotment of NCDs to the Applicants on the date of oversubscription (based on the date of upload of each Application into the Electronic Book with Stock Exchanges, in each Category).

However for the purposes of allotment of NCDs under the Tranche 2 Issue, Applications shall be grouped based on the PAN, i.e. Applications under the same PAN shall be grouped together and treated as one Application and re-categorised based on their total application amount. This re- categorization of investor categories may result in proportionate allotment on the date of oversubscription in the respective categories. Pursuant to re-categorization, each of the applications (based on the date of upload of each Application into the Electronic Book with Stock Exchanges, in each Category) made by the applicant, will compete for allocation with other applications made by the applicants in that respective Category on that respective date.

(g) Proportionate Allotments: For each Portion, on the date of oversubscription:

- i) Allotments to the Applicants shall be made in proportion to their respective Application size, rounded off to the nearest integer,
- ii) If the process of rounding off to the nearest integer results in the actual allocation of NCDs being higher

than the Tranche 2 Issue size, not all Applicants will be allotted the number of NCDs arrived at after such rounding off. Rather, each Applicant whose allotment size, prior to rounding off, had the highest decimal point would be given preference,

- iii) In the event, there are more than one Applicant whose entitlement remain equal after the manner of distribution referred to above, our Company will ensure that the basis of allotment is finalized by draw of lots in a fair and equitable manner.

(h) Applicant applying for more than one Series of NCDs:

If an Applicant has applied for more than one Series of NCDs, and in case such Applicant is entitled to allocation of only a part of the aggregate number of NCDs applied for, the Series-wise allocation of NCDs to such Applicants shall be in proportion to the number of NCDs with respect to each Series, applied for by such Applicant, subject to rounding off to the nearest integer, as appropriate in consultation with Lead Managers and Designated Stock Exchange.

All decisions pertaining to the basis of allotment of NCDs pursuant to the Tranche 2 Issue shall be taken by our Company in consultation with the Lead Managers and the Designated Stock Exchange and in compliance with the aforementioned provisions of this Tranche 2 Prospectus. Any other queries / issues in connection with the Applications will be appropriately dealt with and decided upon by our Company in consultation with the Lead Managers.

Our Company shall allocate and allot Series IV NCDs wherein the Applicants have not indicated their choice of the relevant NCD Series.

Please note in case KYC documents are not proper, Registrar shall hold back physical certificate allotted to the Applicant pending receipt of complete KYC documents from Applicant and the Company shall keep in abeyance the payment of interest or other benefits, till such time. In case of demat application, if the credit of NCDs is rejected due to inactive demat or any mismatch with depositories details against the details received through application, the securities shall hold in pool account till such time the Company/Registrar receive the proper documentation from the investor for further transfer to the beneficiary account. INTERNAL RISKS

- 1. There are outstanding legal proceedings (including criminal proceedings) involving our Company, Promoters, Directors, group companies and subsidiaries. Any adverse outcome in such legal proceedings may affect our business, results of operations and financial condition.***

There are outstanding legal proceedings involving our Company, Promoters, Directors group companies and subsidiaries. These proceedings are pending at different levels of adjudication before various courts, tribunals, enquiry officers, appellate tribunals and arbitrators. If there are any rulings against us/our Directors/our Promoters/our group companies/our subsidiaries, we may face losses and may have to make provisions in our financial statements, which could increase our expenses and our liabilities. In addition, further liability may arise out of these claims. Decisions in such proceedings adverse to our interests may affect our reputation and standing and may have a material adverse effect on our business, results of operations and financial condition. For further details, see section titled “**Outstanding Litigation and Statutory Defaults**” on page no. 186 of this Shelf Prospectus.

- 2. As an NBFC, the risk of default and non-payment by borrowers and other counterparties may materially and adversely affect our profitability and asset quality. Any such defaults and non-payments would result in write-offs and/or provisions in our financial statements which may materially and adversely affect our profitability and asset quality.***

Our lending activities are exposed to credit risk arising from the risk of default and non-payment by borrowers and other counterparties. Our total outstanding loan (gross of provisions) was ₹ 130,132.40 million as at March 31, 2016 and ₹ 117,489.10 million as at March 31, 2015. The size of our loan Portfolio is expected to grow as a result of our expansion strategy in existing as well as new products. Sustained growth may expose us to an increasing risk of defaults as our Portfolio expands. Our gross NPAs as a percentage of total outstanding assets was 4.46% as of March 31, 2016 and 4.56% as of March 31, 2015, while the net NPAs as a percentage of total outstanding assets was 3.54% as of March 31, 2016 and 3.82 %, as of March 31, 2015.

The borrowers and/or their guarantors and/or third parties may default in their repayment obligations due to various reasons including insolvency, lack of liquidity, and operational failure.

We cannot be certain, and cannot assure you, that we will be able to improve our collections and recoveries in relation to the NPAs or otherwise adequately control our level of NPAs in the future. Moreover, as our loan Portfolio matures, we may experience greater defaults in principal and/or interest repayments. Thus, if we are not able to control or reduce our level of NPAs, the overall quality of our loan Portfolio may deteriorate and our results of operations may be adversely affected. Furthermore, our current provisions may not be comparable to those of other financial institutions.

We have made provisions of ₹ 1,653.60 million and ₹ 1,260.80 million and in respect of gross NPAs as on March 31, 2016 and March 31, 2015 respectively. In addition, we maintain a provision against standard assets, as per RBI Guidelines. As of March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013 and March 31, 2012, we have made provisions of ₹ 354.80 million ₹ 269.20 million, ₹ 265.60 million, ₹ 234.20 million and ₹ 218.10 million respectively in respect of standard assets. There can be no assurance that there will be a decrease in our NPA provisions as a percentage of assets, or that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs. If there is any deterioration in our portfolio, it could have a material and adverse impact on our business, future financial performance and results of operations.

3. *Any increase in or realization of our contingent liabilities could adversely affect our financial condition.*

As at March 31, 2016, our financial statements disclosed and reflected the following contingent liabilities:

(Amount in million)

Category	Currency	March 31, 2016	
		No. of Contracts	Amount in Foreign Currency

Interest Rate Swaps	USD/INR	8	USD 69.306

Foreign currency exposures, which are not hedged by derivatives instruments, amount to ₹ 1,460.90 million (Previous year ₹ 2,270.70 million)

If at any time we are compelled to pay all or a material proportion of these contingent liabilities, it would have a material and adverse effect on our business, future financial performance and results of operations.

4. *We may be exposed to potential losses due to a decline in value of assets secured in our favour, and due to delays in the enforcement of such security upon default by our borrowers which may have a material and adverse effect on our business, future financial performance and results of operations.*

Our total loan Portfolio is secured by a mix of movable and immovable assets and/or other collaterals. The value of certain types of assets may decline due to inherent operational risks, the nature of the asset secured in our favour and adverse market and economic conditions (both global and domestic). Our total secured loans as on March 31, 2016 and March 31, 2015 are ₹ 129,629.40 million and ₹ 117,061.40 million respectively, which is 99.61% and 99.64% of our total loan for respective financial years and our unsecured loans as on March 31, 2016 and March 31, 2015 are ₹ 503.00 million and ₹ 427.70 million respectively.

The value of the security or collateral, as the case may be, may also decline due to delays in insolvency, winding-up and foreclosure proceedings, defects in title, difficulty in locating movable assets, documentation relevant to the assets and the necessity of obtaining regulatory approvals for the enforcement of our collateral over those assets, and as such, we may not be able to recover the estimated value of the assets which would materially and adversely affect our business, future financial performance and results of operations. In general, most project loans are provided on a limited recourse basis. With respect to disbursements made on a non-recourse basis, only the related project assets are available to repay the loan in the event the borrowers are unable to meet their obligations under the loan agreements due to lower than expected cash flows. With respect to disbursements made on a limited recourse basis, project sponsors generally give undertakings for funding shortfalls and cost overruns.

In the event of default by our borrowers, we cannot guarantee that we will be able to realize the full value of our collateral, due to, among other things, delays on our part in taking action and in bankruptcy foreclosure proceedings,

stock market downturns, defects in the perfection of collateral, litigation and fraudulent transfers by borrowers. In the event a specialized regulatory agency gains jurisdiction over the borrower, creditor actions can be further delayed.

- 5. We derive majority/substantial of our revenues from our top 20 borrowers. Our inability to maintain relationship with such borrower or any default and non-payment in future or credit losses of our single borrower or group exposure where we have a substantial exposure could materially and adversely affect our business, future financial performance and results of operations***

Being in the infrastructure financing sector, our largest borrowers belong to the infrastructure sectors. Our concentration of exposure is high with our top 20 borrowers having an exposure of 51.16% of our Total Advances as of March 31, 2016. Our business and results of operations would majorly depend upon the timely repayment of the interest and principal from these large borrowers. We cannot assure you that we will not experience any delay in servicing of the loan or that we will be able to recover the interest and the principal amount of the loan. Any such delay or default will adversely affect our income from operation and thereby our profitability. In case we are unable to recover the complete the loan disbursed or any part of thereof, and the collateral is also not sufficient to recover our loan, our financial conditions may be adversely affected.

- 6. This Shelf Prospectus includes certain unaudited financial information, which has been subject to limited review, in relation to our Company. Reliance on such information should, accordingly, be limited.***

This Shelf Prospectus includes certain unaudited financial information in relation to our Company, for the three months ended June 30, 2016, in respect of which the Statutory Auditors of our Company have issued their Limited Review Report dated August 6, 2016. As this financial information has been subject only to limited review and not to an audit, any reliance by prospective investors on such unaudited financial information for the three months ended June 30, 2016 should, accordingly, be limited. Moreover, our financial results for any given fiscal quarter or period, including the three months ended June 30, 2016, may not be directly comparable with our financial results for any full fiscal or for any other fiscal quarter or period. Accordingly, prospective investors in the Issue are advised to read such unaudited financial information for the three months ended June 30, 2016 in conjunction with the audited financial information provided elsewhere in this Shelf Prospectus in "**Financial Information**".

- 7. Our Company has significant Exposure to certain sectors and to certain borrowers and if these Exposures become non-performing, such Exposure could increase the level of non-performing assets in our Portfolio and materially affect our business, future financial performance and results of operations and the quality of our asset Portfolio.***

As at March 31, 2016, we have exposure in the power, road, Infrastructure Park and special economic zones (SEZs) sectors. For the foreseeable future, we may have a significant concentration of loans in these four sectors. Any material negative trends or financial difficulties in these sectors could increase the level of non-performing assets in our Portfolio and may adversely affect our business, future financial performance and results of operations. The customers of our Company may default on their obligations to us as a result of their bankruptcy, lack of liquidity, operational failure, breach of contract, government or other regulatory intervention and other reasons such as their inability to adapt to changes in the macro business environment. Historically, borrowers or borrower groups have been adversely affected by economic conditions in varying degrees. Such adverse impact may limit our ability to recover the dues from the borrowers and predictability of cash flows. Credit losses due to financial difficulties of these borrowers or borrower groups in the future could materially and adversely affect our business, future financial performance and results of operations.

- 8. If we are unable to manage our growth effectively, our business, future financial performance and results of operations could be materially and adversely affected our business, future financial performance and results of operations could be materially and adversely affected.***

The business of our Company has grown rapidly since we began our operations. From March 31, 2012 to March 31, 2016, our total loans outstanding have grown at a CAGR of 10.20%. We intend to continue to grow our businesses, which could place significant demands on our operational, credit, financial and other internal risk controls. It may also exert pressure on the adequacy of our capitalization, making management of asset quality increasingly important.

Our future business plan is dependent on our ability to borrow at competitive rate to fund our growth. We may have difficulty obtaining funding on attractive terms. Adverse developments in the Indian credit markets may increase our debt service costs and the overall cost of our funds. An inability to manage our growth effectively and failure to secure the required funding therefore on favourable terms, or at all, could have a material and adverse effect on our business, future financial performance and results of operations.

- 9. We face increasing competition in our business which may result in declining margins if we are unable to compete effectively and as a result our business, future financial performance and results of operations could be materially and adversely affected..***

Our primary competitors are other NBFCs, public sector banks, private sector banks and other financial institution. Banks have access to low cost funds which enables them to enjoy higher margins and / or offer finance at lower rates. NBFCs do not have access to large quantities of low cost deposits, a factor which may render them less competitive.

All such factors have resulted in us facing increased competition from other lenders such as including commercial banks and other NBFCs in each of our lines of businesses. Our ability to compete with them effectively will depend, to some extent, on our ability to raise funds at competitive rates or at all. Increasing competition may have an adverse effect on our net interest margin and other income, and, if we are unable to compete successfully, our market share may decline.

10. Infrastructure projects carry certain risks which, to the extent they materialize, could adversely affect our business and result in defaults/ delays in repayment of our loans and investments declining in value which could have a material and adverse effect on our business, future financial performance and results of operations.

Our Company's product offerings include debt, equity and mezzanine financings, and financial advisory services related to infrastructure projects in India. As at March 31, 2016 our outstanding loans were ₹ 130,132.40 million Infrastructure projects are characterized by project - specific risks like insufficient credit flow, not received funds in time, any legal differences among the various project partners, as well as certain general risks like pending regulatory approvals, change in Government policy, any natural geographical events etc.

If the risks relating to the projects we finance materialize, the quality of our asset Portfolio and our profitability may decline, which would have a material and adverse effect on our business, future financial performance and results of operations.

11. Failure or inaccurate appraisal of credit or financial worth of clients by our employees may adversely impact our business.

Our employees need to comply with our internal procedures for an extensive appraisal of credit or financial worth of our prospective clients. Failure or inaccurate appraisal of credit or financial worth of our clients or inability or failure of our employees to comply with our internal procedures for credit appraisal may allow a loan sanctioned to eventually result in a bad debt on our books of accounts. In the event we are unable to check the risks arising out of such lapses, it may have an adverse effect on our business and results of operations.

12. Our business requires substantial funding, and any disruption in funding sources would have a material and adverse effect on our liquidity and financial condition.

The liquidity and on-going profitability of our business are, in large part, dependent upon our timely access to funds, and the costs associated with raising such funds. Our funding requirements historically have been met from a combination of shareholder funds, secured and unsecured loan funds in the form of Rupee and foreign currency borrowings from banks and financial institutions, redeemable non-convertible debentures. Thus, our business depends and will continue to depend on our ability to access diversified funding sources. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors including our credit ratings, the regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition.

Further, our ability to raise funds by issuing debt securities from mutual funds has also been restricted, pursuant to a recent SEBI circular SEBI/HO/IMD/DF2/CIR/P/2016/35 dated February 15, 2016 ("SEBI Circular 2016"), mutual funds are required to ensure that the total exposure of debt schemes of mutual funds in a particular sector shall not exceed 25.0% of the net assets value of the scheme. The SEBI Circular 2016 also introduces group level limits for debt schemes and the ceiling be fixed at 20.0% of net assets value extendable to 25.0% of net assets value after trustee approval. This may limit our ability to raise funds from mutual funds.

Reserve Bank of India's monetary policy, changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. Scarcity of long term funds will adversely impact asset/liability profile of the company.

13. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and lending markets and, as a result, would negatively affect our net interest margin and our business.

The NCDs are rated 'BWR AA+ (BWR Double A plus)' by BRICKWORK. Our on-going short-term debt instruments are rated 'CARE A1+' by CARE and 'BWR A1+' by BRICKWORK. Our outstanding Unsecured Subordinated NCDs (Tier II Capital) are rated 'CARE A' by CARE, 'BWR AA' by BRICKWORK and 'ICRA A+' by ICRA. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future. Any such adverse development could adversely affect our business, financial

condition and results of operations. . For instance our outstanding NCDs were earlier rated as ‘CARE AA- (Double A minus)’ by CARE and are now rated ‘CARE A+ (Single A Plus)’ by CARE by way of their letter dated March 21, 2016 and revalidated by letters dated May 18, 2016.

14. *Our indebtedness and restrictive covenants imposed by our financing agreements could restrict our ability to conduct our business and operations.*

Our financing agreements require us to maintain certain security margins. Should we breach any financial or other covenants contained in any of our financing agreements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs.

Under the terms of some of the loan agreements, our Company is required to obtain the prior written consent of the concerned lender prior to our Company entering into any scheme of expansion, merger, amalgamation, compromise or reconstruction or selling, leasing, transferring all or a substantial portion of its fixed and other assets; making any change in ownership or control or constitution of our Company, or in the shareholding or management or majority of directors, or in the nature of business of our Company; or making amendments in the Company’s Memorandum and Articles of Association. In the event that such lenders, in the future decline to consent or delay in granting the consent to our plans of public issue of secured redeemable non-convertible debentures, expansion/ modernization/ diversification of our business, such declination or delay as the case may be may have adverse bearing on our future growth plan.

Our ability to execute expansion plans, including our ability to obtain additional financing on terms and conditions acceptable to us, could be severely and negatively impacted as a result of these restrictions and limitations. Our failure to comply with any of these covenants could result in an event of default, which could accelerate our need to repay the related borrowings and trigger cross - defaults under other borrowings which could materially and adversely affect our liquidity, financial condition and business operations. An event of default would also affect our ability to raise new funds or renew maturing borrowings as needed to conduct our operations and pursue our growth initiatives.

15. *We do not have certain licences for some of our branch offices and/or some of them may have expired. In the absence of these statutory licenses, we may not be in a position to carry on our operations in future and that may affect our performance or we may have to face penalties and action can be taken against us by the concerned authorities for carrying on the operations without the requisite licenses.*

While we have endeavoured to obtain or apply for all applicable licenses including renewals thereof, to operate our businesses, certain licenses may have expired or are still pending before the concerned authorities or the applications for the same are yet to be made (or for renewals thereof). Such non-issuance or non-renewal may result in the interruption of our business operations and may have a material adverse effect on our results of operations and financial conditions.

16. *Our investments can be particularly volatile and may not be recovered.*

As at March 31, 2015, our investments accounted for 16.65 % of our total assets and as of March 31, 2016 our investments accounted for 15.35% of our total assets. The value of investments depends on the success and continued viability of the projects we have invested in. In addition to the project specific risks described in the above risk factors, we have limited control over the operations or management of these projects. Therefore, our ability to realize expected gains as a result of our equity interest in a project is highly dependent on factors outside of our control. Decline in value of our equity Portfolio may materially and adversely affect our business, future financial performance and results of operations.

17. *If our Company’s provisioning requirements are insufficient to cover our existing or future levels of nonperforming loans or if future regulation requires us to increase our provisions, our ability to raise additional capital and debt funds as well as our results of operations and financial condition could be adversely affected.*

We adhere to provisioning requirements related to our loan portfolio pursuant to the Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 2007, as amended (the “Prudential Norms”). These provisioning requirements may be less onerous than the provisioning requirements applicable to financial institutions and banks in other countries. The provisioning requirements may moreover require subjective judgments of our management. Our Company’s gross NPAs were ₹ 8,042.60 million or 4.46 % of our total assets as of March 31, 2016 and ₹ 7,781.30 million or 4.56 % of our total as of March 31, 2015. Our Company’s provision on NPAs was ₹ 1,653.60 million as of March 31, 2016 and ₹ 1,260.80 million as of March 31, 2015. We cannot be sure that we will be able to improve our collections and recoveries in relation to our NPAs, or otherwise adequately control our level of NPAs in future. Moreover, as our loan portfolio matures, we may experience greater defaults in principle and /or interest repayments.

Though we follow stringent provisioning norms as prescribed by the RBI, our provisioning requirements may be inadequate to cover increases in our non-performing loans. The provisioning for standard assets is required to be 0.35 % as on March 31, 2017; and 0.40 % as on March 31, 2018 and thereafter. In addition, the Prudential Norms presently

specify that loans be classified as non-performing after being six months overdue. Further, pursuant to the Prudential Norms the period of six months or more shall be reduced to four months or more for the Fiscal 2017 and three months or more for the Fiscal 2018 and thereafter.

If our provisioning requirements are insufficient to cover our existing or future levels of non-performing loans or if future regulation requires us to increase our provisions, our ability to raise additional capital and debt funds as well as our results of operations and financial condition could be adversely affected.

18. *Private sector infrastructure industry in India, the sector on which we focus is still at an early stage of development and is linked to the continued growth of the Indian economy. In the event that Central and State government initiatives and regulations in the infrastructure industry do not proceed in the desired direction, or if there is any downturn in the macroeconomic environment in India or in specific sectors, our business, future financial performance and results of operations could be materially and adversely affected.*

We believe that further development of India's infrastructure is dependent on formulation and effective implementation of state and central government programs and policies that facilitate and encourage private sector investment in infrastructure projects in India. Many of these programs and policies are developing and evolving and their success will depend on whether they are properly designed to address the issues facing infrastructure development in India and are effectively implemented. Additionally, these programs will need continued support from stable and experienced regulatory regimes and tax deductions that not only encourage the continued movement of private capital into infrastructure projects but also lead to increased competition, appropriate allocation of risk, transparency, effective dispute resolution and more efficient and cost effective services to the end consumer.

The availability of private capital and continued growth of the infrastructure industry are also linked to the continued growth of the Indian economy. Specific factors within each industry sector may also influence the success of the projects within those sectors, including changes in policies, regulatory frameworks and market structures. While initiatives have been taken by Central Government or State Government in Infrastructure sectors, the implementation of these policies requires adequate funding as well as long time. Further, since infrastructure services in India have historically been provided by the central and state governments without charge or at a subsidized charge to consumers, the growth of the infrastructure industry will be impacted by consumers' income levels and the extent to which they would be willing to pay or can be induced to pay for infrastructure services. If the central and state governments' initiatives and regulations in the infrastructure industry do not proceed in the desired direction, or if there is any downturn in the macroeconomic environment in India or in specific sectors, our business, our future financial performance and results of operations could be materially and adversely affected.

19. *We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations, profitability and/or cash flows.*

We face potential liquidity risks due to varying periods over which our assets and liabilities mature. As is typical for NBFCs, a portion of our funding requirements is met through short-term funding sources such as bank loans, working capital demand loans, cash credit, short term loans and commercial papers. Consequently, our inability to obtain additional credit facilities or renew our existing credit facilities, in a timely and cost-effective manner or at all, may lead to mismatches between our assets and liabilities, which in turn may adversely affect our operations, financial performance and/or cash flows. Further, mismatches between our assets and liabilities are compounded in case of pre-payments of the financing facilities we grant to our customers.

20. *As a consequence of being regulated as an NBFC and IFC, and a PFI, we have to adhere to certain individual and borrower group Exposure limits under the RBI regulations.*

Our Company is regulated by the RBI as an NBFC. In terms of the Systemically Important Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2015 dated June 11, 2015 (the "Prudential Norms Directions") our Company is required to comply with the prescribed Exposure limits. Further, our Company has been classified as an IFC by the RBI, which classification is subject to certain conditions including a minimum 75% of the total assets of such NBFC being deployed in infrastructure loans (as defined under the Prudential Norms Directions), net owned funds of ₹ 3,000 million or more, a minimum credit rating of "A" or an equivalent credit rating of CRISIL, India Ratings, CARE or ICRA or any other accredited rating agency and a capital to risk weighted asset ratio of 15%. As an IFC, our Company's single borrower limit for lending may exceed the concentration of credit norms applicable to an NBFC that is not an IFC by an additional 10% of its owned fund, and its single group limit for lending may exceed such credit norms by an additional 15% of its owned fund.

The MCA, through its notification dated September 26, 2011, published in the Official Gazette of India notified our Company, as a Public Financial Institution under Section 4A of the Companies Act 1956 (now Section 2(72) of the Companies Act 2013). As a result of the PFI status, we are required to undertake certain continuing compliances such as the main business of our Company should be industrial/ infrastructural financing, the financial statement should show that its income from industrial/ infrastructural financing exceeds 50% of its income; and the net-worth of our Company should be at least ₹ 10,000 million.

In the event that our Company is unable to comply with the Exposure norms within the specified time limit, or at all, our Company may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of registration as an NBFC, IFC or PFI. Our Company's inability to continue being classified as an IFC and PFI may impact our growth and expansion plans by affecting our competitiveness in relation to our competitors. We cannot assure you that we may not breach the Exposure norms in the future. Any levy of fines or penalties or the cancellation of our registration as an NBFC or IFC by the RBI due to the breach of Exposure norms may adversely affect our business, prospects, results of operations, financial condition and the trading price of the NCDs.

Given the extensive regulation of the financial services industry, it is possible that we could be found, by a court, arbitration panel or regulatory authority not to have complied with applicable legal or regulatory requirements. Further, we may be subject to lawsuits or arbitration claims by customers, employees or other third parties in the different state jurisdictions in India in which we conduct our business. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims that we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled and we shall not be able to carry on such activities. We may also incur substantial costs related to litigation if we are subject to significant legal action, which may materially and adversely affect our business, future financial performance and results of operations.

21. *We may not be able to renew or maintain our regulatory approvals, licences and registration under applicable laws as required to carry our business in normal course, which may adversely affect our business operations and financial profitability.*

Our Company being a NBFC-ND-SI registered with RBI, require certain approvals, licenses, registrations and permissions for operating our business, including registration with the RBI as an NBFC-ND. In addition, the RBI has classified our Company as an IFC. Further, we have been notified as a PFI under section 4A of the Companies Act 1956 (Section 2(72) of Companies Act 2013). Such approvals, licenses, registrations and permissions must be maintained/renewed over time, we may have to comply with certain conditions in relation to these approvals, applicable requirements may change and we may not be aware of or comply with all requirements all of the time. We are required to obtain and maintain a certificate of registration for carrying on business as an NBFC that is subject to numerous conditions. For further details, see the section titled "**Regulations and Policies**" on page no. 205 of the Shelf Prospectus and the chapter titled "**Regulations and Policies**" beginning on page no. 205 of the Shelf Prospectus.

22. *We have entered into certain related party transactions.*

We have entered into certain transactions with related parties as disclosed in our Financial Information. There can be no assurance that we could not have achieved more favourable terms on such transactions had they not been entered into with related parties as disclosed in the accounts. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. Such transactions we have entered into and any future transactions with our related parties could potentially involve conflicts of interest. For more information regarding our related party transactions, see the section titled "Financial Statements" for "Related Party Disclosure" on page no. F-53 of this Shelf Prospectus.

23. *Material changes in the regulations that govern us and our borrowers could cause our business to suffer.*

We are regulated by the Companies Act 1956, Companies Act 2013 and some of our activities are subject to supervision and regulation by statutory authorities including the MCA, RBI, SEBI and Stock Exchange(s). Further, we are subject to changes in Indian law, as well as to changes in regulation and government policies and accounting principles. Being notified as a Public Financial Institution under Section 4A of the Companies Act 1956 (now Section 2(72) of the Companies Act 2013), we are entitled to certain benefits under the Companies Act, 1956, Recovery of Debts due to Banks and Financial Institutions Act, 1993 and Income Tax Act, 1961. The laws and regulations governing us could change in the future and any such changes could adversely affect our business, our future financial performance, by requiring a restructuring of our activities, which may impact our results of operations. As we are in the business of infrastructure financing, major categories of our borrowers are companies, Body Corporates, Partnership firms etc. and they are also registered entities within the meaning of different applicable laws in India . These borrowers are also regulated and supervised by the statutory authorities. Any change in such regulations, may affect the ease of doing business of these borrowers, which could certainly impact our business and future financial performance.

24. *Our insurance coverage may not adequately protect us against losses and in case they exceed our insurance coverage could harm our results of operations and diminish our financial position.*

We maintain insurance coverage of the type and in the amounts that we believe are commensurate with our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage. In addition, there are various types of risks and losses for which we do not maintain insurance, such as losses due to business interruption and natural disasters, because they are either

uninsurable or because insurance is not available to us on acceptable terms. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or results in changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, future financial performance and results of operations.

25. *A failure of our operational systems or infrastructure, or those of third parties, could impair our liquidity, disrupt our businesses, cause damage to our reputation and result in losses.*

Our business is highly dependent on our ability to process a large number of transactions. Our financial, accounting, data processing or other operating systems and facilities may fail to operate properly or become disabled as a result of events that are wholly or partially beyond our control, adversely affecting our ability to process these transactions. As we grow our business, the inability of our systems to accommodate an increasing volume of transactions could also constrain our ability to expand our businesses. Additionally, shortcomings or failures in our internal processes or systems could lead to an impairment of our financial condition, financial loss, disruption of our business and reputational damage.

Our failure to maintain or improve or upgrade our management information systems in a timely manner could materially and adversely affect our competitiveness, financial position and results of operations.

We may also be subject to disruptions of our operating systems, arising from events that are wholly or partially beyond our control including, for example, computer viruses or electrical or telecommunication service disruptions, which may result in a loss or liability to us.

26. *We may be required to increase our capital ratio or amount of reserve funds, which may result in changes to our business and accounting practices that may materially and adversely affect our business and results of operations.*

We are subject to the RBI's minimum capital to risk weighted assets ratio norms. Pursuant to Section 45 -IC of the RBI Act, every NBFC is required to create a reserve fund and transfer thereto a sum not less than 20% of its net profit every year, as disclosed in the profit and loss account and before any dividend is declared. Our Company has been designated an Infrastructure Finance Company as from 31st March, 2011 and as such, must maintain a capital to risk-weighted asset ratio of 15%, out of which 10% should be represented by Tier I capital.

As on March 31, 2016, 2015, 2014, 2013 and 2012 our Company's total capital to risk- asset ratio was 17.54%, 16.97%, 17.78%, 21.68%, and 20.17% respectively.

The RBI may also in the future require compliance with other financial ratios and standards and/or may make the existing requirements more stringent. Compliance with such regulatory requirements in the future may require us to alter our business and accounting practices or take other actions that could materially and adversely affect our business and operating results.

27. *We are affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to decline and adversely affect our return on assets and profitability.*

Our business is dependent on interest income from the loans we disburse. Accordingly, we are affected by volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility.

If interest rates rise, we may have greater difficulty in maintaining a low effective cost of funds compared to our competitors which may have access to low-cost deposit funds. Further, in case our borrowings are linked to market rates, we may have to pay interest at a higher rate as compared to other lenders. Fluctuations in interest rates may also adversely affect our treasury operations. In a rising interest rate environment, especially if the rise were sudden or sharp, we could be adversely affected by the decline in the market value of our securities Portfolio and other fixed income securities. In addition, the value of any interest rate hedging instruments we may enter into in the future would be affected by changes in interest rates.

When interest rates decline, we are subject to greater repricing and prepayment risks as borrowers take advantage of the attractive interest rate environment. When assets are repriced, our spread on our loans, which is the difference between our average yield on loans and our average cost of funds, could be affected. During periods of low interest rates and high competition among lenders, borrowers may seek to reduce their borrowing cost by asking lenders to reprice loans. If we reprice loans, our results may be adversely affected in the period in which the repricing occurs. If borrowers prepay loans, the return on our capital may be impaired as any prepayment premium we receive may not fully compensate us for the redeployment of such funds elsewhere.

28. *In addition to our Rupee borrowings and financial activities, we currently have foreign currency borrowings as well as financing activities, which are likely to continue or increase in the future, which will expose us to fluctuations in foreign exchange rates, which could adversely affect our financial condition.*

As at March 31, 2016, our aggregate foreign currency borrowings amounted to USD 93.31 million and EURO 25.19 million, comprising 5.53% of our aggregate borrowings as at that date. Out of this USD 22.05 million was unhedged. We may seek to obtain additional foreign currency borrowings in the future. We are therefore affected by adverse movements in foreign exchange rates. While we seek to hedge foreign currency exposures, there can be no assurance that our hedging policies and mechanisms will remain effective or that we will enter into effective hedging with respect to any new foreign currency borrowings. To the extent we increase our foreign currency borrowing in the future, we may be further exposed to fluctuations in foreign currency rates. Volatility in foreign exchange rates could adversely affect our business, prospects, results of operations and financial condition. Further, adverse movement of foreign exchange rates may also affect our borrowers negatively, which may in turn adversely affect the quality of our exposure to these borrowers

29. *Our success depends in large part upon our management team and skilled personnel and our ability to attract and retain such persons.*

Our future performance will be affected by the continued service of our management team and skilled personnel. We also face a continuing challenge to recruit and retain a sufficient number of suitably skilled personnel, particularly as we continue to grow. There is significant competition for management and other skilled personnel in the various segments of the financial services industry in which we operate, and it may be difficult to attract and retain the personnel we need in the future. The loss of key personnel may have a material and adverse effect on our business, future financial performance, results of operations and ability to grow in line with our strategy and future plans.

30. *Our results of operations could be adversely affected by any disputes with our employees.*

As of March 31, 2016, our total employee strength was 214. Currently, none of our employees are members of any labour union. While we believe that we maintain good relationships with our employees, there can be no assurance that we will not experience future disruptions to our operations due to disputes or other problems with our work force, which may adversely affect our business and results of operations.

31. *We are exposed to various operational risks, including the risk of fraud and other misconduct by employees or outsiders.*

As with other financial intermediaries, we are exposed to various operational risks such as fraud or misconduct by our employees or by an outsider, unauthorized transactions by employees or third parties, misreporting of and non-compliance with various statutory and legal requirements and operational errors. It may not always be possible to deter employees from or otherwise prevent misconduct or misappropriation of cash collections, and the precautions we take to detect and prevent these activities may not always be effective. Any instance of employee misconduct, fraud or improper use or disclosure of confidential information could result in regulatory and legal proceedings which if unsuccessfully defended, could materially and adversely affect our business, future financial performance and results of operations.

32. *System failures or inadequacy and security breaches in computer systems may adversely affect our business.*

Our business is increasingly dependent on our financial accounting and information technology systems. Our financial, accounting or other data processing systems may fail to operate adequately or become disabled as a result of events that are wholly or partially beyond our control, including a disruption of electrical or communications services.

Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. The information available to and received by our management through our existing systems may not be timely and/or sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations. We may experience difficulties in upgrading, developing and expanding our systems quickly enough to accommodate our growing customer base and range of products.

Our operations also rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Our computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could compromise data integrity and security.

Any failure to effectively maintain or improve or upgrade our management information systems in a timely manner or at all could materially and adversely affect our competitiveness, financial position and results of operations. Moreover, if any of these systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes or systems, it could affect our operations or result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation. In addition, our ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports our businesses and the localities in which we are located.

33. *Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts in India and in some developed countries.*

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, currency risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data.

Our risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon RBI's ALM Guidelines for NBFCs. Other risk management methods depend upon our internal risk management policies and principles evolved by our management. This information may not in all cases be accurate, complete, current, or properly evaluated. Although we have established these policies and procedures, they may not be fully effective.

34. *Our business is based on the trust and confidence of our customers; any damage to that trust and confidence may materially and adversely affect our business, future financial performance and results of operations.*

We are dedicated to earning and maintaining the trust and confidence of our customers; and we believe that the good reputation created thereby and inherent in the "Srei" brand name is essential to our business. As such, any damage to our reputation, or that of the "Srei" brand name, could substantially impair our ability to maintain or grow our business. In addition, any action on the part of any of the Srei Group companies that negatively impact the "Srei" brand could have a material and adverse effect on our business, future financial performance and results of operations.

35. *The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*

Our financial statements, including the financial statements provided in this Shelf Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of the International Financial Reporting Standards ("IFRS") or U.S. GAAP on the financial data included in this Shelf Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS, U.S. GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Indian GAAP financial statements included in this Shelf Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Shelf Prospectus should accordingly be limited.

However we may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, IFRS announced by the MCA in January, 2010. The convergence of certain Indian Accounting Standards with IFRS was notified by the MCA on February 25, 2011 to be implemented in phases. The date of implementing such converged Indian accounting standards has not yet been determined, and will be notified by the MCA in due course after various tax-related and other issues are resolved.

Because there is significant lack of clarity on the adoption of and convergence with IFRS and there is not yet a significant body of established practice on which to draw in forming judgments regarding its implementation and application, we have not determined with any degree of certainty the impact that such adoption will have on our financial reporting. There can be no assurance that our financial condition, results of operations, cash flows or changes in shareholders' equity will not appear materially worse under IFRS than under Indian GAAP, which could have a material adverse effect on the price of our Equity Shares.

As we transition to IFRS reporting, we may encounter difficulties in the ongoing process of implementing and enhancing our management information systems. Moreover, there is increasing competition for the small number of IFRS-experienced accounting personnel available as more Indian companies begin to prepare IFRS financial statements. There can be no assurance that our adoption of IFRS will not adversely affect our reported results of operations or financial condition and any failure to successfully adopt IFRS by an agreed deadline could have a material adverse effect on our business and operations.

36. *As an infrastructure lending institution, notified as a PFI, we are eligible for certain tax benefits. These benefits may become unavailable as per future regulatory guidelines, which may affect our profits.*

.Company is eligible for certain tax benefits as a PFI under the Income Tax Act. We cannot assure you that we would continue to be eligible for such tax benefits in the future as per future regulatory guidelines. If the laws or regulations regarding the tax benefits applicable to us were to change, our taxable income and tax liability may increase, which would adversely affect our financial results.

We have filed tax returns with various tax departments which are pending for assessment. There is a possibility that the tax department may impose additional tax liability on our Company upon completion of these assessments. We cannot assure you that the tax department will not initiate further scrutiny, investigation or regulatory action or reopen assessments for previous years. Any adverse finding by the tax department would have a material adverse effect on our reputation, business, operations and financial conditions.

37. *We may not be able to successfully sustain our growth strategy. Inability to effectively manage our growth and related issues could materially and adversely affect our business and impact our future financial performance.*

We had applied to the RBI for the grant of a license under the Payment and Settlement Systems Act, 2007 (“PSSA”) for acting as a WLAO and have been granted license to set-up, own and operate payment system for WLAs with effect from March 25, 2014. The authorisation issued to set up WLAs shall be valid upto March 31, 2019. Failure to comply with the terms of the license may result in the RBI revoking the license in accordance with the Payment and Settlement Systems Act, 2007. On its implementation, we will be able to earn ‘interchange’ fees from issuing banks, every time a card transaction is undertaken by customers of such issuing banks at an ATM owned and operated by us, in addition to other fee based revenue. In order to continue with this new business we must maintain net worth of at least ₹100 crore at all times. We have little or no operating experience with such businesses, and you should consider the risks and difficulties we may encounter by entering into new lines of business. New businesses may require significant capital investments and commitments of time from our senior management, and there often is little or no prospect of earnings in a new business for several years. Moreover, there is no assurance any new business we develop or enter will commence in accordance with our timelines, if at all, which could result in additional costs and time commitments from our senior management. There also can be no assurance that our management will be able to develop the skills necessary to successfully manage these new business areas. Our inability to effectively manage any of the above issues could materially and adversely affect our business and impact our future financial performance.

38. *We have not been able to procure all the consents from all the lenders to our Company.*

As required under Rule 3 of Companies (Prospectus and Allotment of Securities) Rules, 2014, our Company is required to disclose that Debenture Trustee, Legal Counsel, Lead Managers, Registrar, Experts and the lenders of our Company have given their consents. We had duly applied to all the lenders of our Company for their respective consents as required under the said Rule 3 of Companies (Prospectus and Allotment of Securities) Rules, 2014. In cases of consortium/syndicate lending by lenders to our Company, we have applied for no-objection/consents from the lead bank of such consortium/syndicate for this Issue and have obtained the consent. As on the date of this Shelf Prospectus, we are yet to receive consents from the following lenders of our Company for inclusion of their name in the Shelf Prospectus:

Bank of Maharashtra, Punjab & Sindh Bank, State of Bank of India, State Bank of Patiala, Union Bank of India, Oesterreichische Entwicklungsbank AG (“OeEB”), Nederlandse Financierings-Maatschappij Voor Ontwikkelingslanden N.V. (“FMO”) and UPS Capital Business Credit

However, our inability to obtain such consents from other lenders in a timely manner or at all, may adversely affect timely raising of funds.

39. *We have not independently verified certain data in this Shelf Prospectus.*

We and/or the Lead Managers have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, the Indian economy, as well as NBFCs, the infrastructure finance industry, that are included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

40. *Our Company may not be able to identify suitable joint venture or strategic partners or our Company may not be able to complete transactions on terms commercially acceptable to our Company, or may not be able to complete transactions at all.*

Our Company intends to continue to pursue suitable joint venture and strategic partnership opportunities in India, in particular with companies/firms whose resources, capabilities and strategies are likely to enhance and diversify our Company's business operations. Our Company had partnered with the TATAs in the Shared Passive Telecom Infrastructure industry in India to create Viom Networks which has become an independent telecom infrastructure company. We and a few others had entered into a definitive agreement with American Tower Corporation (“American Tower”) on October 21, 2015 for selling 51% controlling interest in Viom Networks Limited (“Viom”) to American Tower. Post the receipt of all regulatory approvals, the process of stake sale in Viom to American Tower, has been completed. Our Company may not be able to identify suitable joint venture or strategic partners or our Company may not complete transactions on terms commercially acceptable to our Company, or may not complete transactions at all. Our Company may not be able to successfully form such alliances and ventures or realise the anticipated benefits of such alliance and joint ventures. Furthermore, such partnerships may be subject to regulatory approvals, which may not be received in a timely manner, or may not be received at all. In addition, our Company's expected strategic benefits

or synergies of any future partnerships may not be realised. Furthermore, such investments in strategic partnerships may be long term in nature and may not yield returns in the short to medium term. Such initiatives will place significant strains on our Company's management, financial and other resources and any unforeseen costs or losses could adversely affect its business, profitability and financial condition.

41. *We may experience difficulties in expanding our business into new sectors and other geographical regions.*

We continue to evaluate attractive growth opportunities to expand our business into new sectors and other geographical regions. Factors such as competition, regulatory, business practices and requirements in these new sectors and geography may differ from those in our current markets and our experience in our existing sectors and geography. Our business may be exposed to various additional challenges including obtaining necessary governmental approvals, identifying and collaborating with local business and partners with whom we may have no previous working relationship; successfully gauging market conditions in those geography where we have no previous familiarity; attracting potential customers in a market in which we do not have significant experience or visibility; being susceptible to local taxation in additional geographical areas of India and adapting our marketing strategy and operations to different regions of India in which different languages are spoken. Our inability to expand our current operations may adversely affect our business prospects, financial conditions and results of operations.

42. *We do not own a majority of our branch offices. Any termination or failure on our part to renew our Lease/Rent Agreements in a favourable, timely manner, or at all, could adversely affect our business and results of operations. Moreover many of the lease/rent agreements entered into by our Company may not be duly registered or adequately stamped.*

Most of our branch offices are located on leased/rented premises. Some of the lease/rent agreements of our branches may have expired and we maybe currently involved in negotiations for the renewal of these lease/rent agreements. If these lease/rent agreements are not renewed or renewed on unfavourable to us, we may suffer a disruption in our operations or increased costs, or both, which may affect our business and results of operations.

Further, most of our lease/rent agreements may not be adequately stamped or duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce these agreements legally, which may result in an adverse effect on the continuance of the operations and business of our Company.

Risks Associated with the NCDs

1. *There is no guarantee that the NCDs issued pursuant to this Issue will be listed on BSE and NSE in a timely manner, or at all.*

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to this Issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuing of NCDs to be submitted. There could be a failure or delay in listing the NCDs on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict an investor's ability to trade in the NCDs.

2. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs.*

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner, or at all.

3. *There is no active market for the NCDs on the stock exchanges. As a result the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.*

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market price of our Equity Shares, (iii) the market for listed debt securities, (iv) general economic conditions, and, (v) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

4. *Debenture Redemption Reserve would be created up to an extent of 25% of the outstanding NCDs and if we are unable to generate adequate profits, we may not be able to provide for the DRR even to the extent of the stipulated 25 per cent.*

The Companies (Share Capital and Debentures) Rules, 2014 inter alia provides as follows:

- (a) the Debenture Redemption Reserve shall be created out of the profits of the company available for payment of dividend;
- (b) the company shall create Debenture Redemption Reserve equivalent to at least twenty five percent of the amount raised through the debenture issue before debenture redemption commences.

The said Companies (Share Capital and Debentures) Rules, 2014 further provides that the amount credited to the Debenture Redemption Reserve shall not be utilised by the company except for the purpose of redemption of debentures.

Therefore our Company will be maintaining Debenture Redemption Reserve to the extent of 25 per cent of the outstanding NCDs issued and the NCD Holders may find it difficult to enforce their interests in the event of or to the extent of a default. In the case we are unable to generate adequate profits, we may not be able to provide for the DRR even to the extent of the stipulated 25 per cent.

As per Companies (Share Capital and Debentures) Rules, 2014, every company required to create or maintain DRR shall before the 30th day of April of each year, deposit or invest, as the case may be, a sum which shall not be less than 15.00% of the amount of its debentures maturing during the year ending on the 31st day of March, following any one or more of the following methods, namely:(a) in deposits with any scheduled bank, free from charge or lien (b) in unencumbered securities of the Central Government or of any State Government; (c) in unencumbered securities mentioned in clauses (a) to (d) and (ee) of Section 20 of the Indian Trusts Act, 1882; (d) in unencumbered bonds issued by any other company which is notified under clause (f) of Section 20 of the Indian Trusts Act, 1882. The amount deposited or invested, as the case may be, shall not be utilized for any purpose other than for the repayment of debentures maturing during the year referred to above, provided that the amount remaining deposited or invested, as the case may be, shall not at any time fall below 15% of the amount of debentures maturing during the 31st day of March of that year. This may have a bearing on the timely redemption of the NCDs by our Company.

5. *Any downgrading in credit rating of our NCDs may affect the trading price of the NCDs.*

The NCDs proposed to be issued under this Issue have been rated “BWR AA+ (BWR Double A Plus)” from BRICKWORK. We cannot guarantee that these ratings will not be downgraded. The ratings provided by BRICKWORK may be suspended, withdrawn or revised at any time. Any revision or downgrading in the above credit ratings may lower the trading price of the NCDs and may also affect our Company’s ability to raise further debt.

6. *Changes in interest rates may affect the price of our Company’s NCDs.*

All securities where a fixed rate of interest is offered, such as our Company’s NCDs, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our Company’s NCDs.

7. *There may be a delay in making refunds to Applicants.*

We cannot assure you that the monies refundable to you, on account of (a) withdrawal of your Applications, (b) withdrawal of the Issue, or (c) failure to obtain the final approval from the Stock Exchanges for listing of the NCDs, or (d) rejection of Application on technical grounds, will be refunded to you in a timely manner. We, however, shall refund such monies, with the interest due and payable thereon, as prescribed under applicable statutory and/or regulatory provisions.

8. *The NCDs are subject to the risk of change in law.*

The terms and conditions of the NCDs are based on Indian law in effect as of the date of issue of the relevant NCDs. No assurance can be given as to the impact of any possible judicial decision or change to Indian law or administrative practice after the date of issue of the relevant NCDs and any such change could materially and adversely impact the value of any NCDs affected by it.

EXTERNAL RISKS

Risks Relating to India

1. ***Governmental and statutory regulations, including the imposition of an interest rate ceiling, may adversely affect our operating results and financial position.***

As a non-deposit taking NBFC, our Company is subject to regulation by Indian governmental authorities, including the RBI. These laws and regulations impose numerous requirements on us, including asset classifications and prescribed levels of capital adequacy, cash reserves and liquid assets. There may be future changes in the regulatory system or in the enforcement of the laws and regulations that could adversely affect us.

For instance, a number of states in India have enacted laws to regulate money lending transactions. These state laws establish maximum rates of interest that can be charged by a person lending money. For unsecured loans, these maximum rates typically range from 20.0% to 24.0% per annum and are subject change to from time to time. Currently, the RBI requires that the board of all NBFCs adopt an interest rate model taking into account relevant factors such as the cost of funds, margin and risk premium. It is unclear whether NBFCs are required to comply with the provisions of state money lending laws that establish ceilings on interest rates. In October, 2004, the Honourable High Court at Calcutta observed that Bengal Money Lender's Act, 1940 applies to NBFCs. However, in January 2010, the High Court of Gujarat held that the provisions of the RBI Act have an overriding effect upon state money lending laws. The subject matter is pending before the Supreme Court of India in a different case and the final decision has not been passed.

In the event that the Supreme Court of India and/or the government of any state in India requires us to comply with the provisions of their respective state money lending laws, or imposes any penalty against us, our Directors or our officers, including for prior non-compliance, our business, future financial performance and results of operations may be materially and adversely affected.

2. ***Political instability or changes in the Government in India or in the Government of the states where we operate could cause us significant adverse effects.***

We are incorporated in India and all of our operations, assets and personnel are located in India. Consequently, our performance and the market price and liquidity of our NCDs may be affected by changes in exchange rates and controls, interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India. The central government has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business is also impacted by regulation and conditions in the various states in India where we operate. Our business, and the market price and liquidity of our NCDs may be affected by interest rates, changes in central government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive central governments have pursued policies of economic liberalization and financial sector reforms. However, there can be no assurance that such policies will be continued. A significant change in the central government's policies could adversely affect our business, financial condition and results of operations and could cause the price of our NCDs to decline.

3. ***Regional hostilities, terrorist attacks, civil disturbances or social unrest, regional conflicts could adversely affect the financial markets and the trading price of our NCDs could decrease.***

Certain events that are beyond our control, such as terrorist attacks and other acts of violence or war, may adversely affect worldwide financial markets and could potentially lead to a severe economic recession, which could adversely affect our business, results of operations, financial condition and cash flows, and more generally, any of these events could lower confidence in India's economy.

India has also experienced social unrest in some parts of the country. If such tensions occur in other parts of the country leading to overall political and economic instability, it could have a materially adverse effect on our business, future financial performance, results of operations and the trading price of the NCDs.

4. ***Our growth depends on the sustained growth of the Indian economy. An economic slowdown in India and abroad could have a direct impact on our operations and profitability.***

Macroeconomic factors that affect the Indian economy and the global economic scenario have an impact on our business. The growth in our business is primarily driven by the need for financing infrastructure development. Any slowdown in the Indian economy may have a direct impact on the growth in our business and a slowdown in the economy as a whole can increase the level of defaults thereby adversely impacting our Company's profitability and growth plans.

5. ***Our growth depends on our ability to handle risks associated with our business some of which are beyond our control and if they materialize, could have a material and adverse effect on our business, future financial performance and results of operations.***

Some of the risks associated with our business are generally beyond our control and include:

1. political, regulatory and legal actions that may adversely affect project viability;
2. interruptions or disruption in domestic or international financial markets, whether for equity or debt funds;
3. changes in government and regulatory policies;
4. delays in the construction and operation of infrastructure projects;
5. adverse changes in market demand or prices for the products or services that the project, when completed, is expected to provide;
6. the unwillingness or inability of consumers to pay for infrastructure services;
7. shortages of, or adverse price developments in respect of raw materials and key project inputs such as oil and natural gas;
8. potential defaults under financing arrangements with lenders and investors;

9. failure of third parties to perform on their contractual obligations;
10. adverse developments in the overall economic environment in India;
11. interest rate or currency exchange rate fluctuations or changes in tax regulations;
12. economic, political and social instability or occurrences such as natural disasters, armed conflict and terrorist attacks, particularly where projects are located or in the markets they are intended to serve

If any of the above risks materialize, it may have an adverse effect on our business, future financial performance and results of operations.

6. ***Any downgrading of India's debt rating by an international rating agency could have a negative impact on the trading price of the NCDs.***

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, its ability to obtain financing for capital expenditures and the trading price of the NCDs.

7. ***Trading of the NCDs may be limited by temporary exchange closures, broker defaults, settlement delays, strikes by brokerage firm employees and disputes.***

The Indian stock exchanges have experienced temporary exchange closures, broker defaults, settlement delays and strikes by brokerage firm employees. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

8. ***Failure to successfully adopt IND (AS) may adversely affect our Company***

India has decided to adopt the "Convergence of its existing standards with IFRS". These "IFRS based/synchronized Accounting Standards" are referred to in India as IND (AS). Public companies in India may be required to prepare annual and interim financial statements under IND (AS) in accordance with the roadmap for the convergence with IFRS announced by the Ministry of Corporate Affairs, Government of India ("MCA"), through the press note dated January 22, 2010. Further, the Finance Minister, during the Union Budget speech, 2014, proposed the adoption of IND (AS) by Indian companies from fiscal 2016 on a voluntary basis, and from fiscal 2017 on a mandatory basis. Pursuant to MCA's press release dated January 18, 2016, NBFCs with net worth of ₹5,000 million or more will be required to prepare IND (AS) based financial statements for accounting periods beginning from April 1, 2018 onwards with comparatives for the periods ending March 31, 2018 or thereafter. Any failure to successfully adopt IND (AS) may have an adverse effect on the trading price of the Equity Shares of our Company.

9. ***Risks relating to any international regulations, FATCA, taxation rules may apply on the NRIs as the Issue may be marketed to NRIs***

The NCDs have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Shelf Prospectus. Any representation to the contrary is a criminal offence in the United States and may be a criminal offence in other jurisdictions. The NCDs have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws in the United States and may not be offered or sold within the United States under the U.S. Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws in the United States. Further, any person making or intending to make an offer of NCDs within the European Economic Area ("EEA") which are the subject of the Issue contemplated in this Shelf Prospectus should only do so in circumstances in which no obligation arises for our Company to produce a prospectus for such offer.

Foreign Account Tax Compliance Act withholding may affect payments on the NCDs. Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("FATCA") impose a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, (ii) "foreign pass thru payments" made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. FATCA may affect payments made to custodians or intermediaries in the payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. This is not a complete analysis or listing of all potential tax consequences of FATCA. Investors should consult their own tax advisers to obtain a more detailed explanation of FATCA and how FATCA may affect them. India and The United States have signed an agreement on 9 July to share financial information about their residents, which takes effect on 30 September, 2015 and the amendments to the Income Tax Act, have been notified on 7 August by the CBDT.

Therefore if any withholding or deduction is required pursuant to section 1471 through 1474 of the US Internal Revenue Code of 1986 (FATCA), any regulation or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto, our company shall make such FATCA deduction and shall not be liable to compensate, reimburse, indemnify or otherwise make any payment whatsoever directly or indirectly in respect of such FATCA deduction.

Credit Ratings and Rationale

By its letter dated June 19, 2013 and revalidation letter dated August 23, 2016, BRICKWORK has assigned a rating of “BWR AA+” (BWR Double A plus) to the issue of NCDs by the Issuer to the extent of ₹ 97.35 crores out of ₹ 200 crores. The said rating is valid till July 3, 2017.

By its letter dated July 21, 2014 and revalidation letter dated August 23, 2016, BRICKWORK has assigned a rating of “BWR AA+” (BWR Double A plus) to the issue of NCDs by the Issuer to the extent of ₹ 836.46 crores out of ₹ 1000 crores. The said rating is valid till July 3, 2017.

By its letter dated August 6, 2014 and revalidated by letter dated August 23, 2016, BRICKWORK has assigned a rating of “BWR AA+” (BWR Double A plus) to the issue of NCDs by the Issuer to the extent of ₹ 66.87 crores out of ₹ 393.01 crores. The said rating is valid till July 3, 2017.

All the Instruments with BWR AA+ rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. Set out below is an extract of the rating rationale adopted by BRICKWORK:

“Brickwork Ratings (BWR) upgrades Srei Infrastructure Finance Limited’s (‘SIFL or the Company’) Ratings to BWR ‘AA+’ (Pronounced BWR Double A Plus) with a stable outlook from BWR AA (Pronounced BWR Double A) with a stable outlook for NCD issues aggregating to ₹ 4,500 cr and Issuer Rating. The rating “BWR AA+” stands for an instrument that is considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. The rating upgradation, inter alia, factors the substantial cash inflows from the stake sale in Viom Networks Ltd. (Viom) resulting in improved liquidity and capital adequacy, its acquisition of balance stake in Srei Equipment Finance Limited (SEFL) and the Government’s initiatives to revive the infrastructure sector. The rating continues to factor in the Infrastructure Finance Company (IFC) status enjoyed by SIFL as per RBI’s prescribed norms, the time tested experience of the promoter group in the line of infrastructure financing and equipment financing businesses, reduction in average loan size and overall management of asset quality.”

CARE has assigned a rating of ‘CARE A+ (Single A Plus)’ to our outstanding NCDs vide their letters dated March 21, 2016 and revalidation letter dated May 18, 2016. These NCDs were earlier rated ‘CARE AA- (Double A minus)’.

PART-B

GENERAL TAX BENEFITS

I. To the Resident Debenture Holder

1. Interest on Debenture received by Debenture Holders would be subject to tax at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act and such tax would need to be withheld at the time of credit/payment as per the provisions of Section 193 of the I.T. Act. However, no income tax is deductible at source in respect of the following :

- a. In case the payment of interest on debentures to a resident individual or a Hindu Undivided Family ('HUF') Debenture Holder does not or is not likely to exceed ₹ 5,000 in the aggregate during the financial year and the interest is paid by an account payee cheque.
- b. In case of payment of interest on any security issued by a company in dematerialized form and listed on a recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and the rules made there under.
- c. When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the I.T. Act; **and that certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest.**
- d. (i) When the resident Debenture Holder with Permanent Account Number ('PAN') (not being a company or a firm) submits a declaration as per the provisions of section 197A (1A) of the I.T. Act in the prescribed Form 15G, verified in the prescribed manner, to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However, under section 197A (1B) of the I.T. Act, Form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in section 194, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the Financial year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax.

To illustrate, as on 01.04.2016, the maximum amount of income not chargeable to tax in case of individuals (other than senior citizens and super senior citizens) and HUFs is ₹ 2,50,000; in the case of every individual being a resident in India, who is of the age of 60 years or more but less than 80 years at any time during the Financial year (Senior Citizen) is ₹ 3,00,000; and in the case of every individual being a resident in India, who is of the age of 80 years or more at any time during the Financial year (Super Senior Citizen) is ₹ 5,00,000 for Financial Year 2016-17. Further, Section 87A of the I.T. Act provides a tax rebate of 100 percent of income-tax or an amount of ₹ 5,000 whichever is less to a resident individual whose total income does not exceed ₹ 5,00,000 during the Financial year.

- (ii) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non deduction of tax at

source in accordance with the provisions of section 197A (1C) of the I.T. Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on total income of the person is NIL.

- (iii) In all other situations, tax would be deducted at source as per prevailing provisions of the I.T. Act. Form No.15G with PAN/Form No. 15H with PAN/Certificate issued u/s 197(1) has to be filed with the Company before the prescribed date of closure of books for payment of debenture interest without any tax withholding.
2. In case where tax has to be deducted at source while paying debenture interest, the Company is not required to deduct surcharge, education cess and secondary and higher education cess.
 3. Under section 2(29A) of the I.T. Act, read with section 2(42A) of the I.T. Act, a listed debenture is treated as a long term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer.

Under section 112 of the I.T. Act, capital gains arising on the transfer of long term capital assets being listed securities are subject to tax at the rate of 20% of capital gains calculated after reducing indexed cost of acquisition or 10% of capital gains without indexation of the cost of acquisition. The capital gains will be computed by deducting expenditure incurred in connection with such transfer and cost of acquisition/indexed cost of acquisition of the debentures from the sale consideration.

However, as per the third proviso to section 48 of I.T. Act, benefit of indexation of cost of acquisition under second proviso of section 48 of I.T. Act is not available in case of bonds and debenture except capital indexed bonds issued by the Government and Sovereign Gold Bond issued by the Reserve Bank of India under the Sovereign Gold Bond Scheme, 2015. Thus, long term capital gains arising out of listed debentures would be subject to tax at the rate of 10 % computed without indexation.

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

4. Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act. The provisions relating to maximum amount not chargeable to tax, as described above, would also apply to such short term capital gains.
5. In case the debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act.

II. To the Non Resident Debenture Holder

1. A non-resident Indian has an option to be governed by Chapter XII-A of the I.T. Act, subject to the provisions contained therein which are given in brief as under :

Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20%, whereas long term capital gains on transfer of such Debentures will be taxable at 10% of such capital gains without indexation of cost of acquisition. Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.
 - (b) Under section 115F of the I.T. Act, long term capital gains arising to a non-resident Indian from transfer of debentures acquired or purchased with or subscribed to in convertible foreign exchange will be exempt from capital gains tax if the net consideration is invested within six months after the date of transfer of the debentures in any specified asset or in any savings certificates referred to in Section 10(4B) of the I.T. Act, in accordance with and subject to the provisions contained therein. However, if the new assets are transferred or converted into money within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long term capital gains in the year in which the new assets are transferred or converted into money.
 - (c) Under section 115G of the I.T. Act, it shall not be necessary for a non-resident Indian to file a return of income under section 139(1) of the I.T. Act, if his total income consists only of investment income as defined under section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions

of Chapter XVII-B of the I.T. Act in accordance with and subject to the provisions contained therein.

- (d) Under section 115H of the I.T. Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under section 139 for the assessment year for which he is assessable as a resident, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian Company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion (otherwise than by transfer) into money of such assets.
2. In accordance with and subject to the provisions of section 115-I of the I.T. Act, a Non-Resident Indian may opt not to be governed by the provisions of Chapter XII-A of the I.T. Act. In that case,
- (a) Long term capital gains on transfer of listed debentures would be subject to tax at the rate of 10%, computed without indexation.
- (b) Investment income and Short-term capital gains on the transfer of listed debentures (debentures are held for a period of not more than 12 months preceding the date of transfer) would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act.
- (c) Where debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act.
3. Under Section 195 of the I.T. Act, the applicable rate of tax deduction at source is 20% on investment income and 10% on any long-term capital gains as per section 115E and 30% for Short Term Capital Gains if the payee Debenture Holder is a Non Resident Indian.
4. The Income tax deducted shall be increased by a surcharge as under :
- (i) In the case of a non-resident Indian, surcharge at the rate of 15% of such tax where the income or the aggregate of such income paid or likely to be paid and subject to the deduction exceeds ₹ 1, 00,00,000/-
- (ii) In the case of a non-domestic company, at the rate of 2% of such income tax where the income or the aggregate of such income paid or likely to be paid and subject to the deduction exceeds ₹ 1,00,00,000/- but does not exceed ₹10,00,00,000/-.
- (iii) In the case of a non-domestic company, at the rate of 5% of such income tax where the income or the aggregate of such income paid or likely to be paid and subject to the deduction exceeds ₹ 10,00,00,000/-.
- 2% education cess and 1% secondary and higher education cess on the total income tax (including surcharge) is also deductible.
5. As per Section 90(2) of the I.T. Act read with Circular no. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes, in the case of a remittance to a country with which a Double Tax Avoidance Agreement (DTAA) is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of tax residency certificate, containing prescribed particulars, is a mandatory condition for availing benefits under any DTAA.
- In terms of Chapter X-A of the I.T. Act, General Anti-Avoidance Rule may be invoked notwithstanding anything contained in the I.T. Act. By this Rule, an arrangement entered into by an assessee may be declared to be impermissible avoidance arrangement as defined in that Chapter and the consequence would be inter alia, denial of tax benefit. This Chapter comes into force with effect from Financial Year 2017-18.
6. Alternatively, to ensure non deduction or lower deduction of tax at source, as the case may be, the Debenture Holder should furnish a certificate obtained under section 197(1) of the I.T. Act, from the Assessing Officer, before the prescribed date of closure of books for payment of debenture interest. However, an application for the issuance of such certificate would not be entertained in the absence of PAN, as per the provisions of section 206AA of the I.T. Act, except in case of interest on certain long-term bonds and any other payment subject to such conditions as may be prescribed as referred to in Section 206AA(7) of the I.T. Act.

III. To the Foreign Institutional Investors (FIIs)

1. In accordance with and subject to the provisions of section 115AD of the I.T. Act, long term capital gains on transfer of debentures by FIIs are taxable at 10% (plus applicable surcharge and education and secondary and

The benefit of cost indexation will not be available. Further, benefit of provisions of the first proviso of section 48 of the I.T. Act will not apply.

2. Income other than capital gains arising out of debentures is taxable at 20% in accordance with and subject to the provisions of Section 115AD.

This benefit is subject to the condition that the rate of interest on the rupee denominated bond shall not exceed the rate as may be notified by the Central Government in this behalf.
4. In accordance with and subject to the provisions of section 196D (2) of the I.T. Act, no deduction of tax at source is applicable in respect of capital gains arising on the transfer of debentures by FIIs.

Act, subject to and in accordance with the provisions contained therein.

V. Benefits under Section 54EC and Section 54F of the I.T. Act

1. Under section 54EC of the I.T Act, long term capital gains arising to the debenture holders on transfer of their debentures shall not be chargeable to tax, to the extent such capital gains are invested in specified bonds, within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said specified bonds are transferred or converted into money within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long term capital gains in the year in which the bonds are transferred or converted into money. However, the exemption is subject to a limit of investment of Rs. 50 Lakhs in the specified bonds, as mentioned in Section 54 EC. Where the benefit of section 54EC has been availed of, a deduction from the income with reference to such cost shall not be allowed under section 80C of the I.T. Act.
2. As per the provisions of section 54F of the I.T. Act, any long-term capital gains on transfer of a long term capital asset (not being residential house) arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before or two years after the date of transfer, in the purchase of a new residential house in India or for construction of a residential house in India, within three years from the date of transfer. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis.

This exemption is available subject to the condition that the Debenture Holder does not own more than one residential house at the time of such transfer. If the residential house in which the investment has been made is transferred within a period of three years from the date of its purchase or construction, the amount of capital gains tax exempted earlier would become chargeable to tax as long term capital gains in the year in which such residential house is transferred. Similarly, if the Debenture Holder purchases within a period of two years or constructs within a period of three years after the date of transfer of capital asset, another residential house (other than the new residential house referred above), then the original exemption will be taxed as capital gains in the year in which the additional residential house is acquired.

3. As per provisions of Section 54EE inserted by the Finance Act 2016, long term capital gains arising to the Debenture Holder(s) on transfer of their debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in certain notified units within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified units are transferred within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long term capital gains in the year in which units are transferred. Further, in case where loan or advance on the security of such notified is availed, such notified units shall be deemed to have been transferred on the date on which loan or advance is taken. However, the amount of exemption with respect to the investment made in the aforesaid notified units during the financial year in which the debentures are transferred and the subsequent financial year, should not exceed Rs. 50 lacs.

VI. Requirement to furnish Permanent Account Number ('PAN') under the I.T. Act

1. Section 139A(5A) requires every person from whose income tax has been deducted at source under chapter XVIIIB of the I.T. Act, to furnish his PAN to the person responsible for deduction of tax at source.

 - d. Where a wrong PAN is provided, it will be regarded as non furnishing of PAN and Para (a) above will apply.
 - e. As per the Finance Act 2016, with effect from June 1 2016, the provisions of section 206AA shall not apply to a non-resident, not being a company, or to a foreign company, in respect of:

GLOBAL ECONOMY

Global growth, currently estimated at 3.1 percent in 2015, is projected at 3.4 percent in 2016 and 3.6 percent in 2017. The pickup in global activity is projected to be more gradual than in the October 2015 World Economic Outlook (WEO), especially in emerging market and developing economies.

In advanced economies, a modest and uneven recovery is expected to continue, with a gradual further narrowing of output gaps. The picture for emerging market and developing economies is diverse but in many cases challenging. The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large emerging market economies will continue to weigh on growth prospects in 2016–17. The projected pickup in growth in the next two years—despite the ongoing slowdown in China—primarily reflects forecasts of a gradual improvement of growth rates in countries currently in economic distress, notably Brazil, Russia, and some countries in the Middle East, though even this projected partial recovery could be frustrated by new economic or political shocks.

Risks to the global outlook remain tilted to the downside and relate to ongoing adjustments in the global economy: a generalized slowdown in emerging market economies, China’s rebalancing, lower commodity prices, and the gradual exit from extraordinarily accommodative monetary conditions in the United States. If these key challenges are not successfully managed, global growth could be derailed.

In 2015, global economic activity remained subdued. Growth in emerging market and developing economies—while still accounting for over 70 percent of global growth—declined for the fifth consecutive year, while a modest recovery continued in advanced economies. Three key transitions continue to influence the global outlook: (1) the gradual slowdown and rebalancing of economic activity in China away from investment and manufacturing toward consumption and services, (2) lower prices for energy and other commodities, and (3) a gradual tightening in monetary policy in the United States in the context of a resilient U.S. recovery as several other major advanced economy central banks continue to ease monetary policy.

Global growth is projected at 3.4 percent in 2016 and 3.6 percent in 2017. Overall, forecasts for global growth have been revised downward by 0.2 percentage point for both 2016 and 2017. These revisions reflect to a substantial degree, but not exclusively, a weaker pickup in emerging economies than was forecast in October. In terms of the country composition, the revisions are largely accounted for by Brazil, where the recession caused by political uncertainty amid continued fallout from the Petrobras investigation is proving to be deeper and more protracted than previously expected; the Middle East, where prospects are hurt by lower oil prices; and the United States, where growth momentum is now expected to hold steady rather than gather further steam. Prospects for global trade growth have also been marked down by more than ½ percentage point for 2016 and 2017, reflecting developments in China as well as distressed economies.

THE INDIAN ECONOMY

Overview

Macroeconomic developments in the first half of 2015-16 have evolved in close alignment with baseline forecasts. Going forward, inflation is projected to stay below the January 2016 target in 2015-16 and ease further in 2016- 17. The projection of growth is revised downward for 2015-16, with some firming in the following year. Potential volatility in global financial markets poses the most significant risk to these projections. Over the first half of 2015-16 (April-March), macroeconomic developments have evolved in close consonance with staff’s baseline forecast paths set out in the April 2015 Monetary Policy Report (MPR). Deviations in levels, albeit small, are observed both above and below the projections, indicating the absence of systematic bias in forecast errors. Significant shifts in global and domestic macroeconomic and financial conditions since the April 2015 MPR warrant a re-assessment of the baseline assumptions determining the initial conditions that drive staff’s projections.

Looking ahead, the macroeconomic environment appears subdued. While consumption demand seems to be holding up other than in rural areas, the outlook for investment demand remains lacklustre with a shrinking pipeline of greenfield projects, lack of forward movement on the brownfield pipeline, the pressure of considerable slack as evident in persisting under-utilisation of capacity and build-up of finished goods inventories, still high stress on banks' balance sheets and limited progress on major structural reforms. The prospects for exports too appear muted in view of the deterioration in the external trading environment. Moreover, the gains in terms of real incomes expected from favourable terms of trade for net commodity importers have been weak so far.

Over the second half of 2015-16, the recovery in the agricultural sector observed in Q1 is unlikely to sustain, given the 14 per cent deficit in rainfall as well as its uneven distribution, and lower reservoir levels. The industrial sector continues to suffer from structural weakness in various core sectors: financial stress among distribution companies (DISCOMs) in the electricity sector, declining natural gas and crude oil production, coal production impacted by weak demand, and sharp fall in international steel prices affecting domestic producers. Overall consumer confidence polled in the September 2015 round of the Reserve Bank's survey ebbed with regard to prospects for income and employment

Aggregate demand measured by year-on-year changes in real GDP moderated sequentially in Q1 of 2015-16 in relation to the preceding quarter (Table III.1). Seasonally adjusted, the q-o-q slowdown in GDP in Q1 was even sharper. Underlying this deceleration, government consumption expenditure did not exhibit the usual rebound that was expected in Q1 from cutbacks in the preceding quarter (Q4 of 2014-15) to meet annual fiscal targets. Furthermore, the contribution of net exports to aggregate demand turned modestly negative in Q1 of 2015-16 with the export contraction deepening as external demand fell away. On the other hand, the contribution of private consumption demand held up sequentially, supported by real income gains accruing from the ongoing disinflation. Alongside, the growth of gross fixed capital formation picked up, increasing its contribution to aggregate demand as the unclogging of stalled projects continued and input costs declined as global commodity prices softened.

STRUCTURE OF INDIA'S FINANCIAL SERVICES INDUSTRY

The RBI is the central regulatory and supervisory authority for the Indian financial system. The Board for Financial Supervision ("BFS"), constituted in November 1994, is the principal body responsible for the enforcement of the

RBI's statutory regulatory and supervisory functions. SEBI and the Insurance Regulatory Development Authority ("IRDA") regulate the capital markets and the insurance sector respectively.

A variety of financial institutions and intermediaries, in both the public and private sector, participate in India's financial services industry. These are:

1. Commercial banks;
2. Non-Banking Finance Companies ("NBFCs");
3. Specialized financial institutions, such as the National Bank for Agriculture and Rural Development, the Export-Import Bank of India, the Small Industries development Bank of India and the Tourism Finance Corporation of India;
4. Securities brokers;
5. Investment banks;
6. Insurance companies;
7. Mutual funds;
8. Alternative Investment Funds; and
9. Venture capital funds.

NON-BANKING FINANCE COMPANIES

The structure and operations of NBFCs are regulated by the RBI, within the framework of Chapter III B of the RBI Act and the directions issued by it under the RBI Act. As set out in the RBI Act, a "Non-Banking Financial Company" is defined as:

- a financial institution which is a company;
- a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or
- such other non-banking institution or class of such institutions, as the bank may, with the previous approval of the central Government and by notification in the Official Gazette, specify.

Under the provisions of the RBI Act, it is mandatory for a NBFC to be registered with the RBI. For such registration with the RBI, a company incorporated under the Companies Act 1956 and which wishes to commence business as a NBFC, must have a minimum Net Owned Fund ("NOF") of ₹ 20,000,000. A NOF refers to funds (paid-up equity capital, preference shares which are compulsorily convertible into equity, free reserves, balance in share premium account and capital reserves representing surplus arising out of sale proceeds of asset, excluding reserves created by revaluation of asset, after deducting there from accumulated balance of loss, deferred revenue expenditure and other intangible assets) less, (i) investments in shares of subsidiaries/companies in the same group or all other NBFCs; and (ii) the book value of debentures/bonds/outstanding loans and advances, including hire-purchase and lease finance made to, and deposits with, subsidiaries/companies in the same group, in excess of 10% of the owned funds.

The registration process involves the submission of an Application by the company in prescribed format along with the necessary documents for the RBI's consideration. If the RBI is satisfied that the conditions set out in the RBI Act are fulfilled, it issues a "Certificate of Registration" to the company. There are two broad categories of NBFCs based on whether they accept public deposits, namely deposit-taking NBFCs (NBFCs-D) and non-deposit-taking NBFCs (NBFCs-ND). Only those NBFCs holding a valid Certificate of Registration with authorization to accept public deposits can accept and hold public deposits. In addition to having the minimum stipulated NOF, NBFCs should also comply with separate prudential norms prescribed for NBFCs-D and NBFCs-ND. The detailed regulations applicable to NBFCs are available at the RBI website of RBI (www.nbfc.rbi.org.in).

NBFCs are required to adhere to the Prudential Norms Directions which, amongst other requirements, prescribe guidelines regarding income recognition, asset classification, provisioning requirements, constitution of audit committee, capital adequacy requirements, concentration of credit/investment and norms relating to infrastructure loans.

NBFCs are also required to put in place appropriate internal principles and procedures in determining interest rates and processing and other charges in terms of the RBI circular dated May 24, 2007. In addition to the aforesaid, NBFCs are required to adopt an interest rate model for regulating the rates of interest charged by the them in accordance with the Master Circular on Fair Practices Code dated July 1, 2010 issued by the RBI to all NBFCs. See the section titled "*Regulations and Policies*" on page no 205 of this Shelf Prospectus.

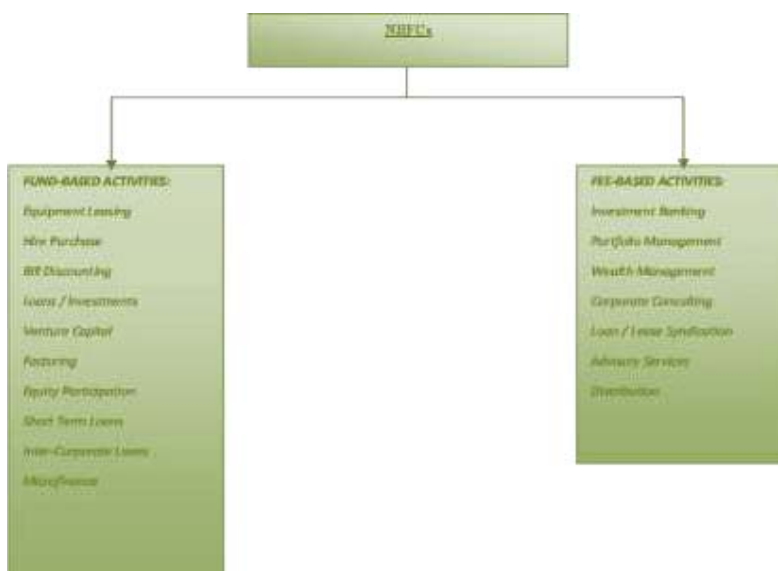

NBFCs are categorized a) in terms of the type of liabilities into Deposit and Non-Deposit accepting NBFCs, b) non deposit taking NBFCs by their size into systemically important and other non-deposit holding companies (NBFC-

The primary long-term lending institutions include India Infrastructure Finance Company Limited (IIFCL), IFCI Limited, Industrial Development Bank of India Limited and Small Industries Development Bank of India.

Specialized financial institutions

In addition, there are various specialized financial institutions which cater to the specific needs of various sectors. These include the National Bank for Agricultural and Rural Development, Export-Import Bank of India, IFCI Venture Capital Funds Limited (formerly the Risk Capital and Technology Finance Corporation Limited), Tourism Finance Corporation of India Limited, Housing and Urban Development Corporation Limited, Power Finance Corporation Limited, Infrastructure Leasing & Financial Services Limited, Rural Electrification Corporation Limited and Indian Railway Finance Corporation Limited.

State level financial institutions

State financial corporations, such as Maharashtra State Financial Corporation, Delhi Financial Corporation and Madhya Pradesh Financial Corporation, were set up to finance and promote small and medium term enterprises at a state level and they form an integral part of the institutional financing system. There are also state industrial development corporations operating at state level, which provide finance primarily to medium- to large-sized enterprises. These include Maharashtra Industrial Development Corporation, Gujarat Industrial Development Corporation and Madhya Pradesh Industrial Development Corporation

Public sector banks and other public sector institutions

Public sector banks make up the largest category of banks in the Indian banking system. The primary public sector banks operating in the infrastructure finance sector include IDBI Bank, State Bank of India, Punjab National Bank, Canara Bank and the Bank of Baroda. Other public sector entities, for example, the Life Insurance Corporation of India, also provide financing to the infrastructure sector.

Private sector banks

After completion of the first phase of the bank nationalization in 1969, the majority of Indian banks were public sector banks. Some existing private sector banks, which showed signs of an eventual default, were merged with state-owned banks. In July 1993, as part of the banking reform process and to induce competition in the banking sector, the RBI permitted entry by the private sector into the banking system resulting in the introduction of nine private sector banks

which are collectively known as the “new” private sector banks. The primary private sector bank operating in the infrastructure financing sector is ICICI Bank.

Infrastructure Finance Companies (“IFCs”)

In February 2010, the RBI introduced IFCs as a new category of infrastructure funding entities. Non-deposit taking NBFCs which satisfy the following conditions are eligible to apply to the RBI to seek IFC status:

- A minimum of 75% of its assets deployed in infrastructure loans;
- Minimum net-worth of ₹ 3,000 million;
- Minimum credit rating “A” or equivalent Credit Rating and Information Services of India Limited, India Ratings and Research Private Limited, Credit Analysis and Research Limited, ICRA Limited or equivalent rating by any other accrediting agencies; and
- Capital to Risk (weighted) Assets Ratio of 15% (with a minimum Tier 1 capital of 10%).

IFCs enjoy benefits which include a lower risk weight on their bank borrowings (from a flat 100% to as low as 20% for AAA-rated borrowers), higher permissible bank borrowing (up to 20% of the bank’s net worth compared to 15% for an NBFC that is not an IFC), access to external commercial borrowings (up to 75% of owned funds under the automatic route) and relaxation in their single party and group exposure norms. These benefits should enable a highly rated IFC to raise more funds, of longer tenors and at lower costs, and in turn to lend more to infrastructure companies.

Sectoral Focus

Traditionally, infrastructure development used to occur through the public sector. However, given the scarcity of public resources, and need to shift scarce public resources into health and education, efforts have been made to induct private participation in the development of infrastructure. These efforts have met with a fair degree of success. As of 31 March 2012, 390 PPP projects have been approved involving an investment of ₹ 3,05,010 crore. According to a report published by World Bank, India has been top recipient of PPP investment since 2006 and has accounted for almost half of the investment in new PPP projects implemented in first half of 2011 in developing countries. An Asian Development Bank report states that India stands in the same degree as developed economies like South Korea and Japan on implementation of PPP projects and Model Concession Agreements prepared in India and used in our PPP projects have also been commended.

The total investment in the infrastructure sectors in the Twelfth Plan is estimated to be ₹ 55.7 lakh crore, which is roughly one trillion dollars at prevailing exchange rates. The share of private investment in the total investment in infrastructure rose from 22 percent in the Tenth Plan to 36.61 per cent in the Eleventh Plan. It will have to increase to about 48 percent during the Twelfth Plan if the infrastructure investment target is to meet.

Roads and Highways

Indian Road network spans about 4.87 million km- 2nd largest in the world after USA with 6.58 million km. The government has taken various steps to revive the sector including premium rescheduling for stressed projects, bidding of tenders only after 80% land has been acquired for the project, fast track clearances of the projects, 100% exit for developers after two years of project completion both for pre-2009 and post-2009 projects and National Highway Authority of India (NHAI) funding for projects that are stuck in advance stages of completion. In addition, NHAI has also made few changes in the model concession agreement and has introduced hybrid annuity projects for Public Private Partnership (PPP) basis to enhance the attractiveness of the sector. The above measures along with increasing focus on Engineering Procurement and Construction (EPC) projects have led to the pace of construction of highways increasing to 18 km per day and government has set a target on 30 km per day by end of March 2016. The pace of execution of road projects has also improved as reflected by commencement of execution of around 80% of the stalled projects.

The sector is still plagued by weak health of power distribution companies, fuel-related issues and transmission constraints.

Encouraging policy framework in the renewable energy (RE) sector has resulted in rising share of RE capacity from 5.9% (7.7 GW) in FY2007 to 13.2% (37.4 GW) as on December 31, 2015. In 9MFY16, RE capacity addition was 3 GW compared to 2.1 GW in 9MFY15. Ports:

India has 7,517-km long coastline with 13 major ports and 187 non major ports, which handle around 90% of India's total international trade in terms of volume and 70% in terms of value. The total volume of traffic handled by all the major Indian ports during FY15 (refers to the period April 1 to March 31) was about 581 million tonnes as compared with about 555 million tonnes handled in FY14, a Y-o-Y growth of about 5%.

The Planning Commission has estimated the total traffic growth at about 14% during the 12th Five Year Plan (2012 to 2017). However, given the plethora of issues surrounding the projects in the power, steel and coal sectors coupled with the slowdown in overall economic growth, CARE expects the total annual traffic at all ports to grow at a CAGR (Cumulative Annual Growth Rate) of 6.2% and reach a level of 1,182 million tonnes by FY17.

Key schemes announced

- I. Implementation of Customs Single Window project starting from the beginning of the next financial year.

SEZ

In order to boost foreign investments, promote exports and to ensure global competitiveness for domestic companies, the Government of India had announced a policy on SEZ in April 2000 and SEZ Act 2005 came into effect in February 2006. Investment in SEZs declined during the last few years due to economic slowdown, land aggregation issues, withdrawal of sops [introduction of Minimum Alternate Tax (MAT) and Dividend Distribution Tax (DDT)] and uncertainty with respect to policies. As on December 21, 2015, there are 412 formally approved SEZ of which 204 are operational in India (compared to 491 formally approved SEZs of which 196 operational as on January 21, 2015).

Key schemes announced

- I. Benefit of section 10AA to new SEZ units will be available to those units which commence activity before March 31, 2020.

Construction

Construction industry, the second largest employment generator in the economy after agriculture, is integral to support India's growing need for infrastructure and industrial development. The growth of the industry is directly correlated to the growth of gross domestic product (GDP). In the last 10 years, construction as a percentage of GDP has been around 7-8%. The industry witnessed a slowdown in the last couple of years, mainly on account of slowdown in the economy, delay in project awarding and execution due to environmental clearance hurdles, aggressive bidding by players, lack of funding, land acquisition issues and policy bottlenecks

Key schemes announced

- I. Total outlay of Rs.2,21,246 crore planned for infrastructure in 2016-17.

OUR FUNDING STRUCTURE

Our Company is an NBFC-ND-SI. Accordingly, our Company does not accept deposits, and as such, we rely on equity (in the form of shareholders’ funds) and loan funds (in the form of various secured and unsecured borrowings) in order to meet our capital and funding requirements. Of these funding sources, secured loans remain the most significant source of funding across all three of our core finance business groups. Our Secured loans as a percentage of the total sources of funds of our Company as at March 31, 2016, 2015, 2014, 2013 and 2012 stood at 73.46%, 75.05%, 74.44%, 70.06% and 66.15%, respectively.

As a general principle, we prefer to borrow long-term funds from a diversified lender base and we accordingly aim to develop our balance sheet by matching such funds with the maturities of our assets and interest rate structure. We believe that a diversified lender profile ensures that we are not overly dependent on any one source or a few financial institutions. In light of this, and our growing funding requirements, we have made conscious efforts to diversify our lender base to include a larger number of different types of banks (public sector banks, domestic private banks and foreign banks), financial institutions (principally in the form of debt) and retail investors (principally in the form of debt through public issue of debt).

3. Risk Validation

Similarly, Risk team also reviews the credit rating of each proposal and highlights the risk for each transaction along with the possible mitigants before submission to the Credit Committee.

Treasury team takes care of fund mobilization in addition to disbursement of loan and arranging Letter of Credit ("LC")/Bank Guarantee ("BG"). They indicate cost of and availability of funds to the business. They also monitor and report the prudential exposure limits.

7. Credit Pricing

Pricing is essentially a function of risk, tenure and market forces. As far as fund-based exposure is concerned it has two components, viz., benchmark and spread. The benchmark and spread are a function of cost of funds, overheads and credit losses. The decision of the interest rate being either fixed or floating will be dependent on the nature of the product being offered, market conditions, cost and source of funds.

Interest rates on loans and advances are generally linked to the SREI Benchmark Rate (“SBR”). The SBR is determined by the interest rate risk (function of tenure and interest rate outlook), market risk, cost of operations and minimum returns required on capital. Our Company constantly monitors and if required, resets the SBR, taking into account the various factors mentioned above. The asset liability management committee (“ALM”) of our Company has the authority to set and reset the SBR.

Our Company may also set a term premium which would vary from time to time depending on the changes in the market rates.

It is necessary that the spread is determined by credit risk rating, structure of the transaction, instrument design, etc. Our Company therefore ensures that the pricing, in general, is in a broad indicative band, based on the credit rating and tenure.

8. Security

Our loans are mostly secured loans. It is usually backed by a) Movable & Immovable plant & machinery, b) Land & buildings, c) Pledge of Shares (both listed and unlisted), d) Project asset, e) Personal Guarantee & Corporate Guarantee.

9. Valuation of land & building

Site visit and valuation of land & building by our internal team is mandatory for each transaction before disbursement if applicable.

10. Credit Authority – Credit Committee (CC)

Credit Committee (CC), the credit authority has the power to approve new credit limits as well as increase or extend the existing credit limits. The authority for approval of credit proposals, within limits stipulated is delegated by the Board of Directors to the Credit Committee (CC). The Committee thus exercises their powers within the framework of the norms prescribed by the Board of Directors from time to time.

Before a credit facility (both secured as well unsecured) is provided, various approvals are required to be obtained at different stages of the credit sanctioning and disbursement process, keeping in view the specific requirements of the transactions. The approval process is done by adhering to separate stages which are pre-sanction and post-sanction. It is only after obtaining the approval of CC, the sanction letter is prepared for verification by the legal department before disbursement. Security

The project assets typically form the security for the credit facilities we provide. The details of the security to be charged in favour of our Company are stipulated by the CC and suitably reflected in the security documents in the credit approval process. The security package for each facility is structured in such a manner so as to adequately cover the risks associated with the facility.

The insurance policies are typically issued to our infrastructure customers, and assigned in favour of our Company and any co-financiers sharing the security on a pari passu basis, where applicable, as the loss-payees.

Based on these, strategic decisions are taken and implemented to mitigate risks and maintain the required risk-return profile.

Post decision making, the management continuously monitors these risks to determine the effectiveness of the risk management framework. An overview of some of the major risks to the Company has been evaluated below.

Credit Risk

Risk explanation

This is the financial risk that results in a loss to the Company owing to non-payment of financial obligation by its borrowers in accordance with agreed terms. The Company's direct lending, leasing business and derivatives transactions are subject to these risks.

Risk mitigation

Equipment financing – The Company undertakes a stringent credit appraisal system for financing, as its customers belong to micro, small and medium enterprise (MSME) category. Its multi-check credit appraisal system analyses the transaction in details along with tracking the entrepreneur's credit worthiness. Also, the Company maintains a close relationship with the borrower, which helps in closely tracking their business operations and providing timely assistance to address the business uncertainties.

Project finance – Srei Infra provides finance to various infrastructure projects as both sole lender and consortium lender. Each project / transaction is analysed in great detail by a team of highly qualified and experienced professional to understand the various risk attached with it. After understanding the risk profile, suitable mitigants are identified and then lending decision is taken on the basis of risk return analysis and our risk appetite.

Liquidity & Funding Risk

Risk explanation

The Company's ability to meet its financial obligations in a timely manner and have adequate funding options, whenever required, are critical for maintaining a constant business cycle.

Risk mitigation

Srei Infra regularly maps its assets and liabilities position, cash-flow situation and market conditions, which help it determine the average liquidity position that the Company needs to maintain at any given point. It also aligns the various payment dates with receipts to achieve the maximum possible liquidity. Strong credit worthiness and relationship with a large number of domestic and international banks ensure adequate funding arrangement for the Company. The Company's excellent track record and sound lending practices make it a preferred borrower. Post-merger with Quippo, additional equity base has resulted in improved capital adequacy and increased borrowing ability.

Market Risk

Risk explanation

Financing business is strongly driven by market factors such as interest rates, foreign exchange rates, market prices, equity prices and credit spreads which are highly fluctuating in nature. Inability to control these factors can lead to reduced profitability for the Company.

Risk mitigation

Majority of Company's assets and liabilities are floating in nature. Any mismatch in the form of a basis risk between the benchmark used on the liabilities against the ones on the assets is continuously monitored by Asset Liability Management (ALM) Committee and strategies are made to manage them. For foreign currency exposure, proper hedging strategies are in place and if required, open position is kept on the basis of our view on interest rate movement. A cap for the open position is also defined and it is regularly monitored, so that appropriate action for hedging can be taken, if required.

Residual Value Risk

Risk explanation

If the amount realized on disposing of leased assets or re-letting them at the end of the leased term is less than the amount projected at the lease inception, then it may lead to losses to the firm.

Risk mitigation

An experienced and knowledgeable team, along with a robust operating process, ensures that lease period is less than economic life of the leased equipment in lease transactions. The team regularly scrutinizes the residual value exposure by evaluating the recoverability of the residual value of the leased equipment at the lease inception. This provides opportunity of re-letting the leased assets and also evaluating their projected disposal value at the end of the period. The Company makes impairment provisions if and when required. The Company also has options to use the leased assets in-house, should there be erosion in its market value.

Legal and Compliance Risk

Risk explanation

The inability of the Company to meet rules and regulations of the jurisdiction in which Srei Infra operates, involvement in illegal contractual agreements resulting in disputes, illegal infringement of assets or any other legal matter may lead to losses.

Regular reviews are conducted to improve its policies and procedures to safeguard itself against reputation and operational risks. Srei has a clean credit history with not a single instance of the Company failing to meet any of its financial obligations.

Sustainability Risk

Risk explanation

The Reserve Bank of India Act, 1934

The RBI is entrusted with the responsibility of regulating and supervising activities of NBFCs by virtue of powers vested to it through Chapter III B of the RBI Act. Section 45-I (f) of the RBI Act defines a NBFC as:

- (i) a financial institution which is a company;
- (ii) a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or
- (iii) such other non-banking institution or class of such institutions as the RBI may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

As per the RBI Act 1934, a financial institution has been defined as a company which includes a non-banking institution carrying on as its business or part of its business the financing activities, whether by way of making loans or advances or otherwise, of any activity, other than its own and it is engaged in the activities of loans and advances, acquisition of shares /stock /bonds /debentures /securities issued by the Government of India or other local authorities or other marketable securities of like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of carrying out any agricultural or industrial activities or the sale/ purchase/ construction of immovable property.

Any company which carries on the business of a non-banking financial institution as its principal business is to be treated as an NBFC. Since the term 'principal business' has not been defined in law, the RBI has clarified through a press release (Ref. No. 1998-99/ 1269) in 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide its principal business. The company will be treated as an NBFC if its financial assets are more than 50% of its total assets (netted off by intangible assets) and income from financial assets should be more than 50% of the gross income. Both these tests are required to be satisfied as the determinant factors for principal business of a company.

With effect from 1997, NBFCs were not permitted to commence or carry on the business of a non-banking financial institution without obtaining a Certificate of Registration (CoR) from RBI. Further, with a view to imparting greater financial soundness and achieving the economies of scale in terms of efficiency of operations and higher managerial skills, the RBI has raised the requirement of minimum net owned funds from ₹ 25 lakhs to ₹ 200 lakhs for the NBFCs which commence business on or after April 21, 1999. Further, pursuant to RBI Circular No DNBR (PD) CC.No.002/03.10.001/2014-15 dated November 10, 2014 (“RBI Circular 2014”) it shall be mandatory for all the existing NBFCs to attain a minimum net owned funds of ₹ 200 lakh by the end of March 2017.

Further, every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalization of the balance sheet and in any case not later than December 31st of that year, stating that it is engaged in the business of non-banking financial institution requiring it to hold a CoR.

NBFCs are primarily governed by the RBI Act, the Non-Banking Financial (Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007 (“Prudential Norms-D”), the Systemically Important Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2015 (“Prudential Norms-ND”) and Non-Systemically Important Non-Banking financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2015, the Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998 and the provisions of the Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 1998. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

Although by definition, NBFCs are permitted to operate in similar sphere of activities as banks, there are a few important, key differences. The most important differences are:

- An NBFC cannot accept deposits repayable on demand - in other words, NBFCs can only accept fixed term deposits. Thus, NBFCs are not permitted to issue negotiable instruments, such as cheques which are payable on demand; and
- NBFCs are not allowed to deal in foreign exchange, even if they specifically apply to the RBI for approval in this regard.

Section 45-IA of the RBI Act makes it mandatory for every NBFC to get itself registered with the Reserve Bank in order to be able to commence any of the above activities. Further, an NBFC may be registered as a deposit-accepting NBFC (“NBFC-D”) or as a non-deposit accepting NBFC (“NBFC-ND”). NBFCs registered with RBI are further classified as:

- Asset Finance Companies;
- Investment Companies;
- Systemically Important Core Investment Company;
- Loan Companies;
- Infrastructure Finance Companies;
- Infrastructure Debt Fund - NBFCs;
- NBFC- Micro Finance Institutions;
- NBFC - Factors;
- Mortgage Guarantee Companies; and/or
- NBFC- Non-Operative Financial Holding Company

Our Company has been classified as an NBFC-ND-SI and is further classified as an “infrastructure finance company”. Norms applicable to NBFCs classified as Infrastructure Finance Companies

On February 12, 2010, the RBI introduced a new classification of NBFCs termed as ‘Infrastructure Finance Companies’ (“**IFC**”), with a view to encouraging a greater flow of capital into infrastructure development.

To qualify and maintain its status as an IFC, among other conditions, an NBFC must satisfy the following:

- At least 75 % of the NBFC's total assets should be deployed in infrastructure loans;
- The NBFC must have net owned funds of at least ₹ 3.0 billion;
- The NBFC must have a minimum credit rating of "A" or its equivalent from any of CRISIL, CARE, India Ratings or ICRA or a comparable rating from any other accrediting rating agency;
- The NBFC must have a minimum CRAR of 15.0% ; and
- The NBFC must not accept deposits.

IFCs are entitled to various benefits such as:

- A lower risk weight on their bank borrowings, from 100.0% to as low as 20.0% for AAA rated borrowers;
- Higher permissible bank borrowings (both lending and investment, including off balance sheet expenses), increased from 15.0% of its capital funds that a bank may lend to an NBFC to 20.0% of capital funds as per its last audited balance sheet that it may lend to an IFC, provided that such increased bank exposure to the IFC is used for on - lending to the infrastructure sector;
- They are permitted to raise external commercial borrowings (ECBs) (the total outstanding ECBs including the proposed ECB) for on lending to the infrastructure sector under the automatic route (subject to compliance with the applicable prudential guidelines and hedging of the currency risk in full) up to 50% of their owned funds; and
- They are permitted to have loan exposure to the extent of 25.0% (as compared to 20.0% for an NBFC) of net owned funds to a single borrower and loan exposure to the extent of 40.0% (as compared to 35.0% for an NBFC) of net owned funds to a single business group.
- The risk weight for assets covering PPP and post commercial operations date (COD) projects which have completed at least one year of satisfactory commercial operations is at 50 per cent”.

Regulatory Requirements of an NBFC under the RBI Act

Net Owned Fund (NOF)

Section 45-IA of the RBI Act provides that to carry on the business of an NBFC, an entity would have to register as an NBFC with the RBI and would be required to have a minimum NOF of ₹ 200 lakh. Although, at present, the requirement of minimum NOF stands at ₹ 200 lakh, the minimum NOF for companies that were already in existence before April 21, 1999 was retained at ₹ 25 lakh. Further in accordance with RBI Notification No.DNBR.007/CGM (CDS)-2015 dated March 27, 2015 which provides that a non-banking financial company holding a certificate of registration issued by the Reserve Bank of India and having net owned fund of less than two hundred lakh of rupees, may continue to carry on the business of non-banking financial institution, if such company achieves net owned fund of:

- i. one hundred lakh of rupees before April 1, 2016; and
- ii. two hundred lakh of rupees before April 1, 2017.

For this purpose, the RBI Act has defined “net owned fund” to mean (a) the aggregate of the paid-up equity capital and free reserves as disclosed in the latest balance sheet of the company, after deducting (i) accumulated balance of losses (ii) deferred revenue expenditure (iii) deferred tax asset (net) and (iv) other intangible assets; and (b) further reduced by the amounts representing;

The RBI in order to have all instructions in one place issued the Master Circular, DNBR (PD) CC. No. 044/03.10.119/2015-16 dated July 1, 2015 (“Master Circular, 2015”), updating the Non-Deposit Accepting or Holding Prudential Norms 2007. The Master Circular, 2015 issued by the RBI contains detailed directions on prudential norms, which inter alia, prescribe guidelines on income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, disclosures in the balance sheet, requirement of capital adequacy, restrictions and concentration of credits and investments.

The Prudential Norms Directions require that every NBFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes:

- (i) Standard assets;
- (ii) Sub-standard assets;
- (iii) Doubtful assets; and
- (iv) Loss assets.

Further, such class of assets would not be entitled to be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for such up-gradation.

An NBFC-ND, after taking into account the time lag between an account becoming non-performing, its recognition, the realization of the security and erosion overtime in the value of the security charged, shall make provisions against sub-standard assets, doubtful assets and loss assets in the manner provided for in the Prudential Norms Directions. In terms of the requirement of the circular dated January 17, 2011 issued by the RBI, as updated by circular dated March 27, 2015, NBFCs are required to make a general provision of 0.25% of the outstanding standard assets. The provisions on standard assets are not reckoned for arriving at net NPAs. The provision towards standard assets need not be netted from gross advances but shall be shown separately as 'Contingent Provisions against Standard Assets' in the balance sheet.

Disclosure Requirements

An NBFC-ND is required to separately disclose in its balance sheet the provisions made in terms of the provisioning requirements without netting them from the income or against the value of the assets. Additionally, Press Note 4 of 2009 issued on February 25, 2009 clarifies the guidelines on downstream investments by Indian companies. These press notes have been consolidated by the Government of India an FDI Policy issued by the Department of Industrial Policy & Promotion. The FDI Policy is reviewed every one year.

External Commercial borrowing (ECB)

The current policy of the RBI directly relating to ECB is consolidated in the Foreign Exchange Management (Borrowing or Lending in Foreign Exchange) Regulations, 2000, as amended from time to time and Master Circular on External Commercial Borrowing and Trade Credits dated July 1, 2015 (“ECB Guidelines”) and Master Direction - External Commercial Borrowings, Trade Credit, Borrowing and Lending in Foreign Currency by Authorised Dealers and Persons other than Authorised Dealers dated January 1, 2016 (“ECB Directions”).

The ECB Guidelines state that ECB refers to commercial loans in the form of bank loans, buyers’ credit, suppliers’ credit and securitized instruments, such as, floating rate notes and fixed rate bonds, availed from non-resident lenders with a minimum average maturity of three years. Funds received by an Indian company from the issue of preference shares, whether non-convertible, optionally convertible or partially convertible, or the issue of debentures that are not mandatorily and compulsorily convertible into equity shares, are considered debt and accordingly, all norms applicable to ECB (including those relating to eligible borrowers, recognised lenders, amount and maturity and end-use stipulations) apply to such issues.

ECB can be accessed under the automatic route and the approval route. The ECB Guidelines are subject to amendment from time to time. Pursuant to the extant ECB Guidelines issued by the RBI, NBFCs categorized as IFCs, have been permitted to avail of an ECB. NBFCs-IFCs are permitted to avail of ECBs for on-lending to the infrastructure sector as defined under the ECB policies. NBFCs-IFCs are permitted to avail of ECB, beyond 75 per cent of their owned funds (including the outstanding ECBs) for on-lending to the infrastructure sector as defined under the ECB policy. NBFC-IFCs can avail of ECB up to 75 per cent of their owned funds (ECB including all outstanding ECBs) and must hedge 75 per cent of their currency risk exposure. IFCs can avail ECBs from recognised and eligible lenders up to USD 750 million without any prior approval from RBI.

After obtaining prior approval of the RBI, IFCs can avail ECB beyond 75% of their owned funds subject to compliance with the norms prescribed in the extant ECB Guidelines and upon hedging of 75% of the currency risk. Further, after obtaining prior approval of the RBI, NBFCs can also avail ECB with minimum average maturity of five years from multilateral financial institutions, reputable regional financial institutions, official export credit agencies and international banks to finance import of infrastructure equipment for leasing to infrastructure projects. For all NBFCs, the average maturity period of the ECBs should be either 3 years for ECB up to USD 50 million or its equivalent or 5 years for ECB beyond USD 50 million or its equivalent. However, vide RBI//2015-16/349 A.P. (DIR Series) Circular No.56 dated March 30, 2016 IFCs are eligible to raise ECB under Track I of the ECB Directions with minimum average maturity period of 5 years, subject to 100 per cent hedging. Further, such IFCs should have a Board approved risk management policy and the designated AD Category-I bank shall verify that 100 per cent hedging requirement is complied with during the currency of ECB and report the position to RBI through ECB 2 returns. The said Circular dated March 30, 2016 also clarifies that ECB framework is not applicable in respect of the investment in Non-convertible Debentures (NCDs) in India made by Registered Foreign Portfolio Investors (RFPIs).

The all-in-cost ceiling for NBFCs should be in line with the market conditions. IFCs proposing to avail of the credit enhancement facility under the ECB Guidelines and ECB Directions should comply with the eligibility criteria and prudential norms laid down in the circular DNBS.PD.CC No.168/03.02.089/2009-10 dated February 12, 2010 and in case the novated loan is designated in foreign currency, the IFC should hedge the entire foreign currency exposure.

Revisions to guidelines for securitization timelines

The RBI, vide a notification dated August 21, 2012 extended the guidelines on securitisation of standard assets (loans), which had earlier been issued to banks, to NBFCs, stipulating that originating NBFCs can securitise loans/assets only after the same had been held by them for a minimum period in their books. The notification further clarified that trade receivables with tenor up to 12 months discounted/purchased by NBFCs from their borrowers will be eligible for securitisation. Further, the RBI has stipulated a minimum retention requirement to ensure that the originating NBFCs have a continuing stake in the performance of securitised assets so as to ensure that they carry out due diligence of loans to be securitised. Where the repayment is at more than quarterly intervals, loans can be securitised after repayment of at-least two instalments. The originating NBFCs should ensure that prospective investors have easily available access to all materially relevant data on the credit quality and performance of the individual underlying exposures, cash flows and collateral supporting a securitisation exposure.

International legislation relating to FATCA

FATCA is a new chapter in the U.S. Internal Revenue Code. FATCA is one of the most extensive tax information reporting regimes created by the U.S. Internal Revenue Service (“IRS”) and U.S. Treasury with objective to address perceived abuses by US taxpayers with respect to assets held offshore, away from the USA. FATCA requires Foreign Financial Institutions (“FFI”) to identify, classify and report U.S. accounts and Passive Nonfinancial foreign entities (“NFFE”) to report substantial U.S. owners or certify no U.S. ownership. On July 9, 2015, India signed Model 1 Inter-Governmental Agreement (“IGA”) with the US IRS for implementation of FATCA. Section 285BA of the Income Tax Act was amended by the Finance (No.2) Act 2014 to require prescribed reporting financial institutions to register, identify accounts held by reportable persons and to report to the Indian tax authorities. The CBDT vide Notification dated August 7, 2015 notified the Income–Tax (11th Amendment) Rules, 2015 (the “Income Tax Rules”) to provide for registration of persons, due diligence, maintenance of information, and for matters relating to statement of reportable accounts. RBI vide its Circular dated 28th August, 2015 has issued instructions to all the concerned financial institutions to take steps for complying with the reporting requirement under FATCA and Common Reporting Standards (“CGR”). Further on August 31, 2015, RBI has also issued instructions for compliance of Guidance Note on implementation of reporting requirements under Rules 114F to 114H of the Income Tax Rules, as issued by Department of Revenue, Ministry of Finance on 31st August, 2015, under which all the financial institutions based on the guidance notes are required to determine whether it is a “reporting financial institution” or not. Our Company has registered itself with Income Tax Department for this purpose. However, Indian institutions are generally not required to withhold tax as per section 285A of the Act and the IGA signed with USA. In case any withholding or deduction is required pursuant to section 1471 through 1474 of the US Internal Revenue Code of 1986, any regulation or agreements there under, official interpretations thereof, or any law implementing an intergovernmental approach thereto, our Company shall make such FATCA deduction and shall not be liable to compensate, reimburse, indemnify or otherwise make any payment whatsoever directly or indirectly in respect of such FATCA deduction.

This is not a complete analysis or listing of all potential tax consequences of FATCA. Investors should consult their own tax advisers to obtain a more detailed explanation of FATCA and how FATCA may affect them. Please also refer to the section titled “Risk Factors - Risks relating to any international regulations, FATCA.

INSOLVENCY AND BANKRUPTCY CODE

As a demonstration of India’s combined political will, the much awaited and debated Insolvency and Bankruptcy Code, 2016 (Code) was passed by the Upper House of the Parliament on 11 May 2016 (shortly after being passed by the Lower House on 5 May 2016). The Code has received the assent of the President of India on May 28, 2016. The country now has a new legal regime that primarily enables time-bound restructuring and bankruptcy of debtors. Some of the primary objectives with which the Code has been conceptualized are:

- A. to consolidate the laws relating to insolvency, reorganization and liquidation/ bankruptcy of all persons, including companies, individuals, partnership firms and Limited Liability Partnerships (LLPs) under one statutory umbrella and amending relevant laws;
- B. time bound resolution of defaults and seamless implementation of liquidation/ bankruptcy and maximizing asset value;
- C. to encourage resolution as means of first resort for recovery;
- D. creating infrastructure which can eradicate inefficiencies involved in bankruptcy process by introducing National Company Law Tribunal (NCLT), Insolvency Resolution Professional Agencies (IPAs), Insolvency

Professionals (IPs) and Information Utilities (IUs).

In order to cover bankruptcy of individuals, the Code will repeal the Presidency Towns Insolvency Act, 1909 and Provincial Insolvency Act, 1920. Additionally, the Code will amend 11 statutes including, inter alia, the Companies Act, 2013 (Companies Act) Sick Industrial Companies (Special Provisions) Repeal Act, 2003 (SICA), Limited Liability Partnership Act, 2008 (LLP Act), Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI) and Recovery of Debts Due to Banks and Financial Institutions Act, 1993 (RDDBFI). The Code seeks to establish an Insolvency and Bankruptcy Board of India (Board) which will function as the regulator for all matters pertaining to insolvency and bankruptcy. The Board will exercise a range of legislative, administrative and quasi-judicial functions.

The Code specifies 2 different adjudicating authorities (the Adjudicating Authority) which will exercise judicial control over the insolvency process as well as the liquidation process. In case of companies, LLPs and other limited liability entities (which may be specified by the Central Government from time to time), the NCLT shall be acting as the Adjudicating Authority. All appeals from NCLT shall lie with the appellate authority, i.e. the National Company Law Appellate Tribunal (NCLAT). In case of individuals and partnerships, the Adjudicating Authority would be the Debt Recovery Tribunal (DRT) with the Debt Recovery Appellate Tribunal (DRAT) continuing to be the appellate tribunal even for insolvency/ bankruptcy matters. The Supreme Court of India shall have appellate jurisdiction over NCLAT and DRAT.

Corporate Insolvency includes two processes within its ambit, (i) Insolvency Resolution and (ii) Liquidation. The Code prescribes a timeline of 180 days for the insolvency resolution process, which begins from the date the application is admitted by the NCLT. The period is subject to a single extension of 90 days in the event the Adjudicating Authority (being petitioned by a resolution passed by a vote of 75% of the COC) is satisfied that the corporate insolvency resolution process cannot be completed within the period of 180 days. This time period is also applicable to individual insolvency resolution process. During this period, the creditors and the debtor will be expected to negotiate and finalise a resolution plan (accepted by 75% of the financial creditors) and in the event they fail, the debtor is placed in liquidation and the moratorium lifted. The Code stipulates an interim-moratorium period which would commence after filing of the application for a fresh start process and shall cease to exist after elapse of a period of 180 days from the date of application. During such period, all legal proceedings against such debtor should be stayed and no fresh suits, proceedings, recovery or enforcement action may be initiated against such debtor. However, the Code has also imposed certain restrictions on the debtor during the moratorium period such as the debtor shall be not be permitted to act as a director of any company (directly/indirectly) or be involved in the promotion or management of a company during the moratorium period. Further, he shall not dispose of his assets or travel abroad during this period, except with the permission of the Adjudicating Authority.

The bankruptcy of an individual can be initiated by the debtor, the creditors (either jointly or individually) or by any partner of a partnership firm (where the debtor is a firm), only after the failure of the Insolvency Resolution Process (IRP) or non-implementation of repayment plan. The bankruptcy trustee is responsible for administration of the estate of the bankrupt and for distribution of the proceeds on the basis of the priority set out in the Code.

Review Report to
The Board of Directors
Srei Infrastructure Finance Limited

1. We have reviewed the accompanying Statement of Standalone Unaudited Financial Results of Srei Infrastructure Finance Limited (the "Company") for the quarter ended June 30, 2016 (the "Statement"), being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with Circular No. CIR/CFD/CMD/15/2015 dated November 30, 2015 and Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016. This Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Accounting Standard 25 "Interim Financial Reporting" as prescribed under Sec 133 of Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of Company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
3. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the aforesaid accounting standards and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with Circular No. CIR/CFD/CMD/15/2015 dated November 30, 2015 and Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Tax expense comprises of current tax [(net of Minimum Alternate Tax (MAT) credit entitlement)] and deferred tax.

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax reflects the impact of timing differences between taxable income and accounting income for the current reporting year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities. The deferred tax assets and deferred tax liabilities relate to the taxes on income levied by the same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by The Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

The rating upgradation, *inter alia*, factors the substantial cash inflows from the stake sale in Viom Networks Ltd (Viom) resulting in improved liquidity and capital adequacy, its acquisition of balance stake in SREI Equipment Finance Limited (SEFL), and the Government's initiatives to revive infrastructure sector. The rating continues to factor in the Infrastructure Finance Company (IFC) status enjoyed by SIFL as per RBI's prescribed norms, the time-tested experience of the promoter group in the line of infrastructure financing and equipment financing businesses, reduction in average loan size and overall management of asset quality.

However, the rating is constrained by the current slow pace of the infrastructure sector, declining profitability, reducing net interest margin due to high competition and portfolio concentration with high exposure to power sector, roads and SEZ/Industrial Park sector.

BWR has essentially relied upon the audited financial results of the Company upto FY16, , other information publicly available or provided by the company, and clarifications provided by the company.

Background: SREI Infrastructure Finance Limited (SIFL) - incorporated in 1985 and having its headquarters at Kolkata - is primarily engaged in financing of infrastructure projects and equipment. Apart from Infrastructure Financing, it is also engaged in infrastructure project development and providing advisory services. SIFL has been classified as an Infrastructure Finance Company ("IFC") by the Reserve Bank of India within the overall classification of Non-Banking Financial Companies ("NBFC") in India. While the core services of SIFL remain infrastructure project finance, project development and project advisory, the Group also offers a broad range of holistic financial services such as capital market services, insurance broking, venture capital and infrastructure equipment finance through its group companies like SREI Equipment Finance Ltd, SREI Capital Markets Ltd, SREI Venture Capital Ltd etc.,. As on March 31, 2016, the promoter and promoter group holds 58.72% stake in SIFL, general Public holds 18.76%, foreign Institutions hold 12.71% and others including NBFC's Mutual funds and Financial Institutions holds 9.8%.

Financial Performance: SIFL's group disbursements during FY16 improved to Rs 14,533 Crs from Rs 12,546 Crs for FY15, witnessing a growth of 16 % y-o-y. Consolidated AUM increased marginally to Rs 36,702 Crs in FY16 vs Rs. 35,387 Crs as on FY15.

On a consolidated basis for FY16, the Company has achieved a turnover of Rs 3261.94 Crs against Rs 3360.32 Crs for FY15. Net interest income for FY16 stood at Rs 640 Crs. Network as on 31st March 2016 stood at Rs 3231 Crs against Rs 3174 Crs in FY15. The total borrowings were Rs 20673 Crs for FY16 as against Rs 20326 Crs in FY15. The company has maintained a steady leverage of 5.7x for the past 2 years.

On a standalone basis, as per the audited financials for FY16, the total income from financing activities has decreased to Rs 1788 Crs in FY16 from Rs 1835 Crs in FY15. NII has decreased to Rs 214 Crs from Rs 324 Crs. Standalone Network as on 31st March 2016 stood at Rs 2701 Crs against total borrowings of Rs 14599 Crs resulting in a gearing of 5.40x.

SIFL's standalone capital adequacy has increased from at 16.97% in FY15 to 17.54% as to FY16 and is well above RBI's prescribed minimum of 15% for Infrastructure Finance Companies. Tier 1 Capital ratio has increased from 11.21% in FY15 to 12.51 % in FY16. The yield on average funds for FY16 is 13.40% against average cost of funds of 11.30% resulting in a spread of 2%.

Rating Outlook:

SIFL's performance is linked to the growth and health of Infrastructure Sector, which has gone through difficulties over the last couple of years, however is recovering due to various initiatives taken by the government to boost the infrastructure sector. With Government's increasing focus on infrastructure, outlook for the sector is expected to be better, and it will benefit SIFL's clients. Continuing focus on asset quality, steps to bring down overall borrowing cost, reducing ticket size of its exposures, maintaining the asset quality and improve capitalization levels will be the key rating sensitivities.
